Company Profile

HDL is an international company which has prided itself on providing the highest possible level of professional service since 1985.

With its headquarters based in Guangzhou for manufacturing, distribution and integration solutions, HDL has become one of the main participants on the international scene of home and building automation.

Due to the reliability of the HDL Buspro, we have developed different kinds of projects, ranging from a smart house in Norway, through a luxury hotel in Dubai and a lighting control system in the famous Sydney Opera House, to the biggest international events, such as the Shanghai Expo 2010.

The HDL brand has been widely distributed around the world, and is available in more than one hundred countries, through various dealers, integrators and distributors.

We are proud to state the reason why we have become a top company in the sector. Caring about our customers is our priority, and we are always searching for the next innovative step to provide our customers with a customised solution for their homes, and the most productive and energy-efficient solutions for their businesses.

A Powerful R&D Department

The aim of HDL is to accelerate the worldwide transition to the full automation of homes and buildings, with a full and diverse range of increasingly-affordable HDL Buspro products. To this end, our engineers constantly work on the cutting edge of innovation, looking for the next challenge to create products with new functionalities, more customisable for our customers, and widely compatible with the different technologies available in the market.

Excellent Technical Support

The best way to recognise good service is, of course, to have experienced bad service in the past, and then to experience good service to compare it against. We are confident that you will only ever experience the highest level of service with HDL. If any of your products do give you any problems, you should be able to find the solution as quickly as possible. Your time is valuable to you and us, and it should not be wasted.

Our team was designed and constructed to work closely with our R&D department. We are able to provide a fast and very direct technical support service which will help you with your installation, configuration, and all types of issues that may present themselves.

Advantages of HDL

01

VALUE

- Best Price-Quality / Functionality Ratio .
- Highest cost-performance in the market.

02

SERVICE

- Fast and decisive Technical Support service.
- Customization of our products, materials or design on customers request.
- Possibility to provide OEM solutions.

03

DELIVERY

- Quickest delivery in the market. Ready to delivery to whichever part of the world.
- Availability of shipping by plane and ship.
- Free shipping only in case of manufacturing defect.

- HDL is an international company with a presence in more than eighty different countries all around the world.
- Its headquarters are situated in Guangzhou, with offices in Oslo, Dubai, Munich and London.
- HDL's distribution network covers the whole world, with more than 200 dealers and distributors, and over 1,000 installation designers and electrical installers.

BEIJING GREAT HALL OF THE PEOPLE

THEATER LIGHTING CONTROL PROJECT

BMW WORLD MUSEUM IN GERMANY

DMX SHOW CONTROL PROJECT

From 1995 to the present

The largest and most outstanding stage lighting control system in China was built by HDL.

HDL provided 95% of the stage lighting solution for this iconic building, which is used for legislative and ceremonial activities of the Communist Party.

From 1995 until the present, HDL has been the company in charge of maintaining, checking over and upgrading the intelligent control system, which has more than 6,000 different lighting channels, and stage lighting with more than 20,000 lamps.

The whole of the intelligent control system is managed through Ethernet, and from the control center we can monitor the state of each single device and lamp.

HDL was not only focused on the improvement of the stage lighting control system, but also enhanced and optimized the energy-saving aspect of the project.

The BMW Museum Center is the symbol of Munich. The modern museum is located at the Olympic Park, and is a reference model for multi-functionality in building, as well as a great example of an energy-saving system.

Eventa AG, as the construction contractor, selected HDL to provide the DMX Lighting Control solution for the spectacular glass showroom.

In this case the customer asked us to keep the balance between outdoor and indoor lighting through a huge sensors system connected by HDL Buspro.

GUANGZHOU ASIAN GAMES PROJECT

《 HOME AUTOMATION CONTROL PROJECT 》

In 2010, Guangzhou celebrated the 16th edition of the Asian Games (ASIAD), the best Asian Games so far. This was a massive event unprecedented in both size and scale. HDL contributed to this success by implementing their solutions for the Asian Games Village.

HDL provided the home automation for all the apartments in the Asian Games Villas. The solution chosen by the organization was an integration of lighting, curtains, AC, background music, video, security, monitoring systems, intercom, and door access, with everything controlled by HDL's App available for tablets and smart phones.

SHANGHAI WORLD EXPO CENTER

《 BUILDING AUTOMATION CONTROL PROJECT 》

Shanghai became the capital of the world during the world Expo in 2010. The theme of the exposition was "Better Life-Better City" and it had the largest number of countries participating, and was the most expensive Expo, in the history of the world, with more than 73 million participants.

HDL was the company selected to integrate the solution for the most important building in the nationalities area, the China Pavilion, and also the China Aerospace Pavilion in the cooperates area.

HDL implemented and displayed an outstanding outdoor lighting effects, controlled by a combination of lighting network systems which covers the whole area of the World Expo Park.

The company achieved the target of making unique buildings which captured the attention and imagination of all the visitors, and HDL became established as an expert and reliable company for urban outdoor lighting landscapes, and stages for massive events.

VIETNAM GRAN HO TRAM STRIP CASINO HOTEL

《 LUXURY CASINO HOTEL AUTOMATION PROJECT 》

SOFITEL CASABLANCA TOUR HOTEL

《 LUXURY RESORT HOTEL AUTOMATION PROJECT 》

HDL's Hotel Guestroom System was implemented in all of the 541 guest rooms in the hotel, in the biggest resort in Vietnam. This included: integrating lights control and AC control; clean room notifiers; provision of room status to reception (mostly used to prepare services in advance); motion sensors; dry contact modules for integration with doors' magnetic sensors; and door bells with DND service (Do not Disturb showed at the door's bell display).

The big challenge for HDL was to satisfy the requirement from the customer to make HDL's Hotel System compatible with the software used for the general management of the hotel, a hospitality ERP from the USA. Our engineers started to work right away, and HDL achieved the target with a high score. The customisation for the client was highly successful, and ready on time.

Furthermore, when the guest is checking in or out, the reception staff can remotely control all the room's functionalities from reception in order to prepare the room for a warm welcome to the customer in the case of check-in, or to save energy by switching off all the lights in the room after the customer has checked out.

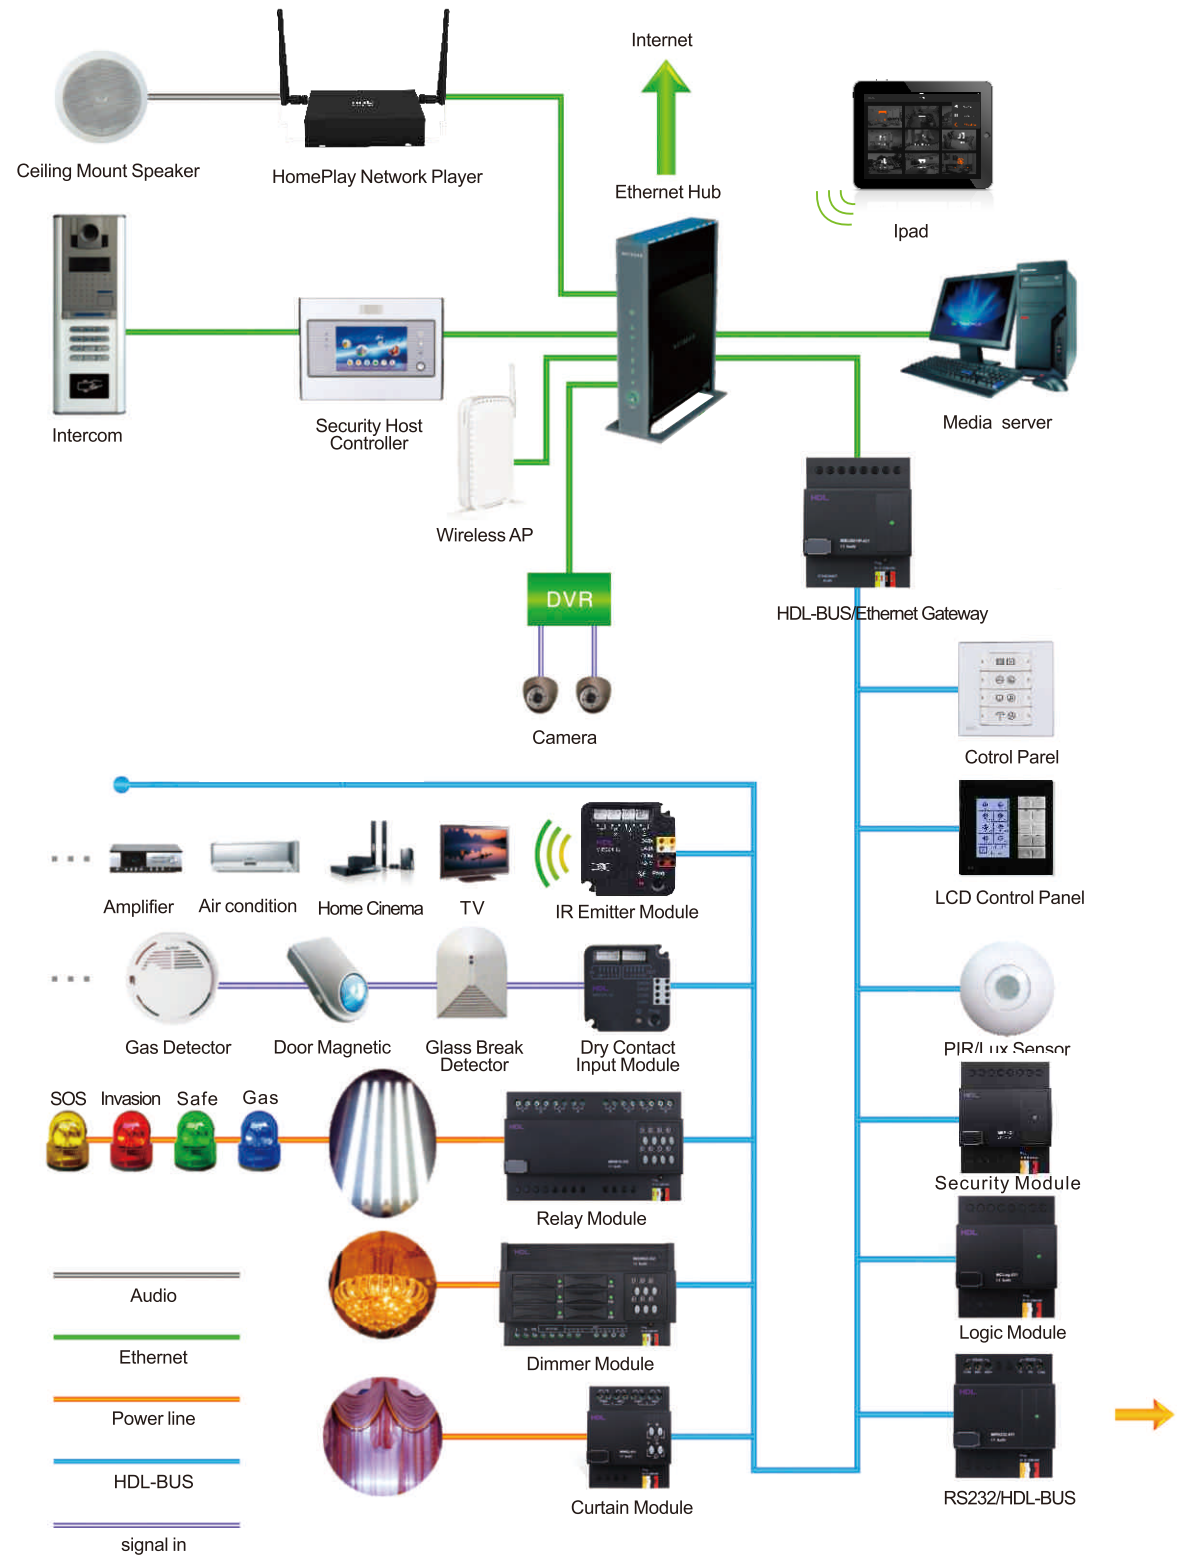

All 171 rooms and 30 suites of the SOFITEL Casablanca had lighting, AC, and curtains fully automated, with control enabled via a customized DLP panel. To enable the energy consumption and guestroom amenities to be controlled and monitored, the hotel was equipped with HDL guestroom management software.

The solutions that you can find in the rooms are a control panel inside the room from which the customer can display the room status on an external doorbell display; and lighting and curtain functions that can be controlled from within the room from the room controller designed by HDL.

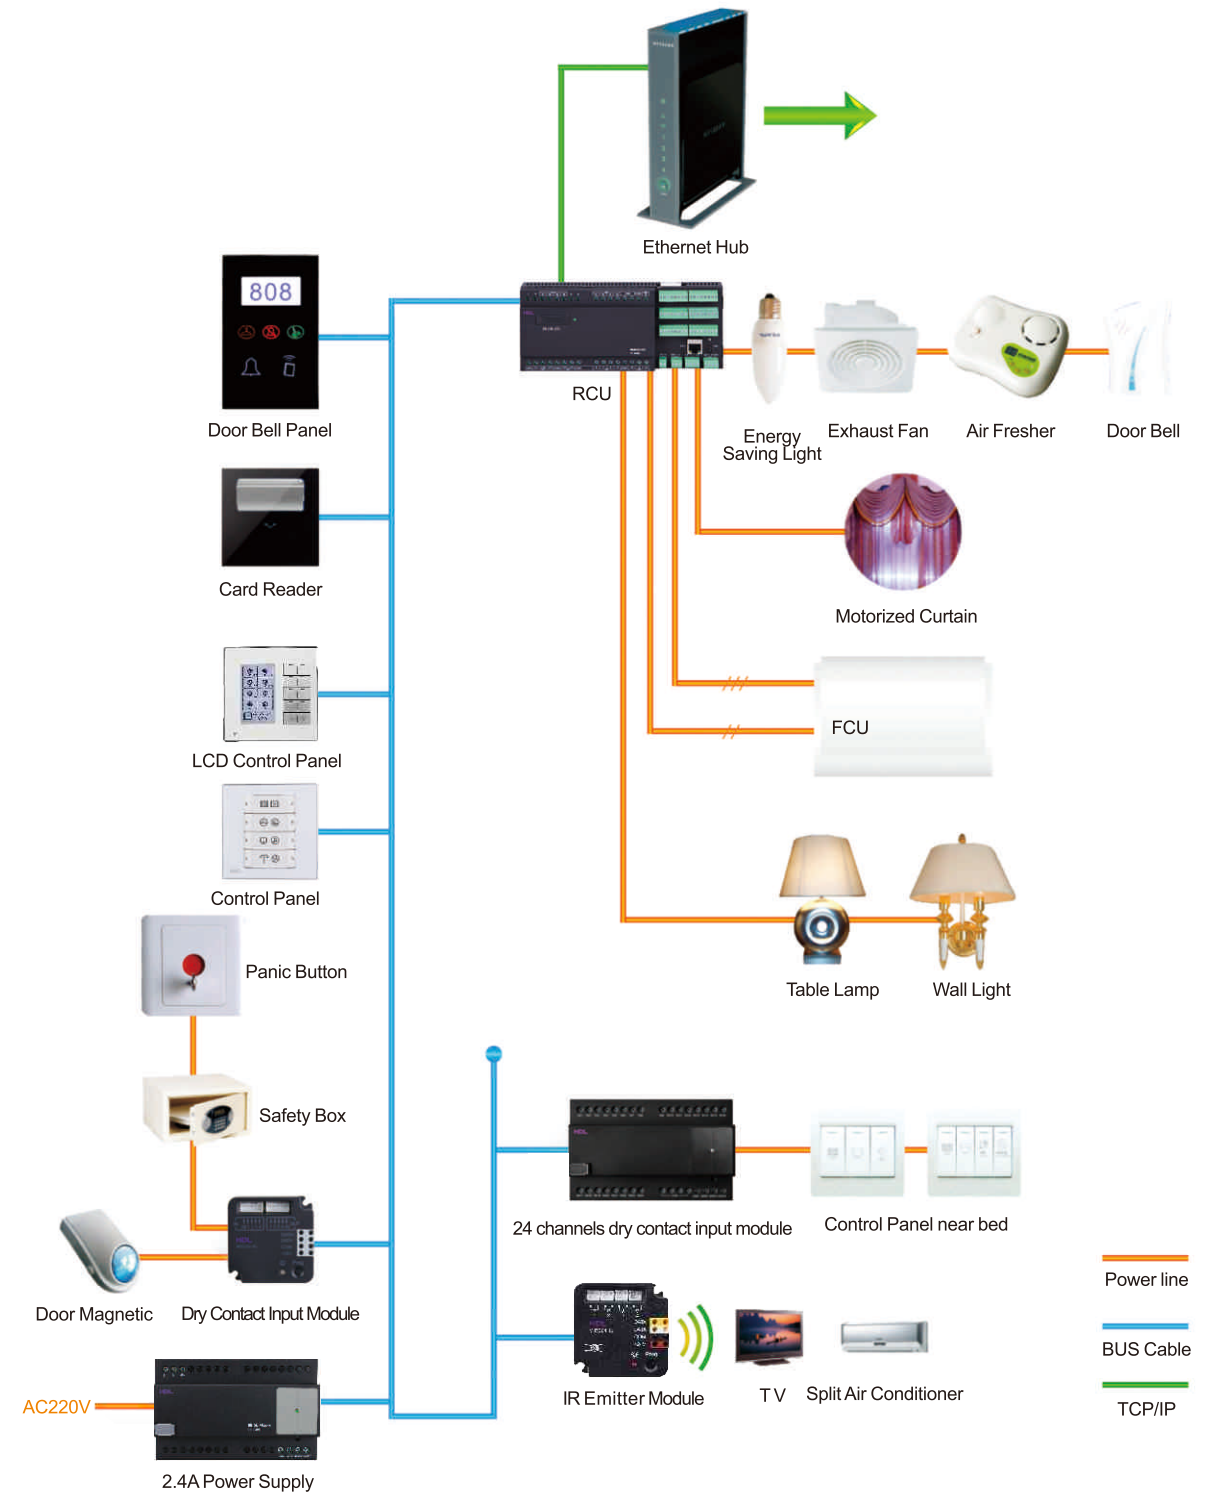

The system brought a minimalist and elegant but homely style to both customers and hotel workers. Different scene modes such as Read Mode and Night Mode make the otherwise complicated on/off easier and more attractive for the guests.

SMART HOME SOLUTIONS

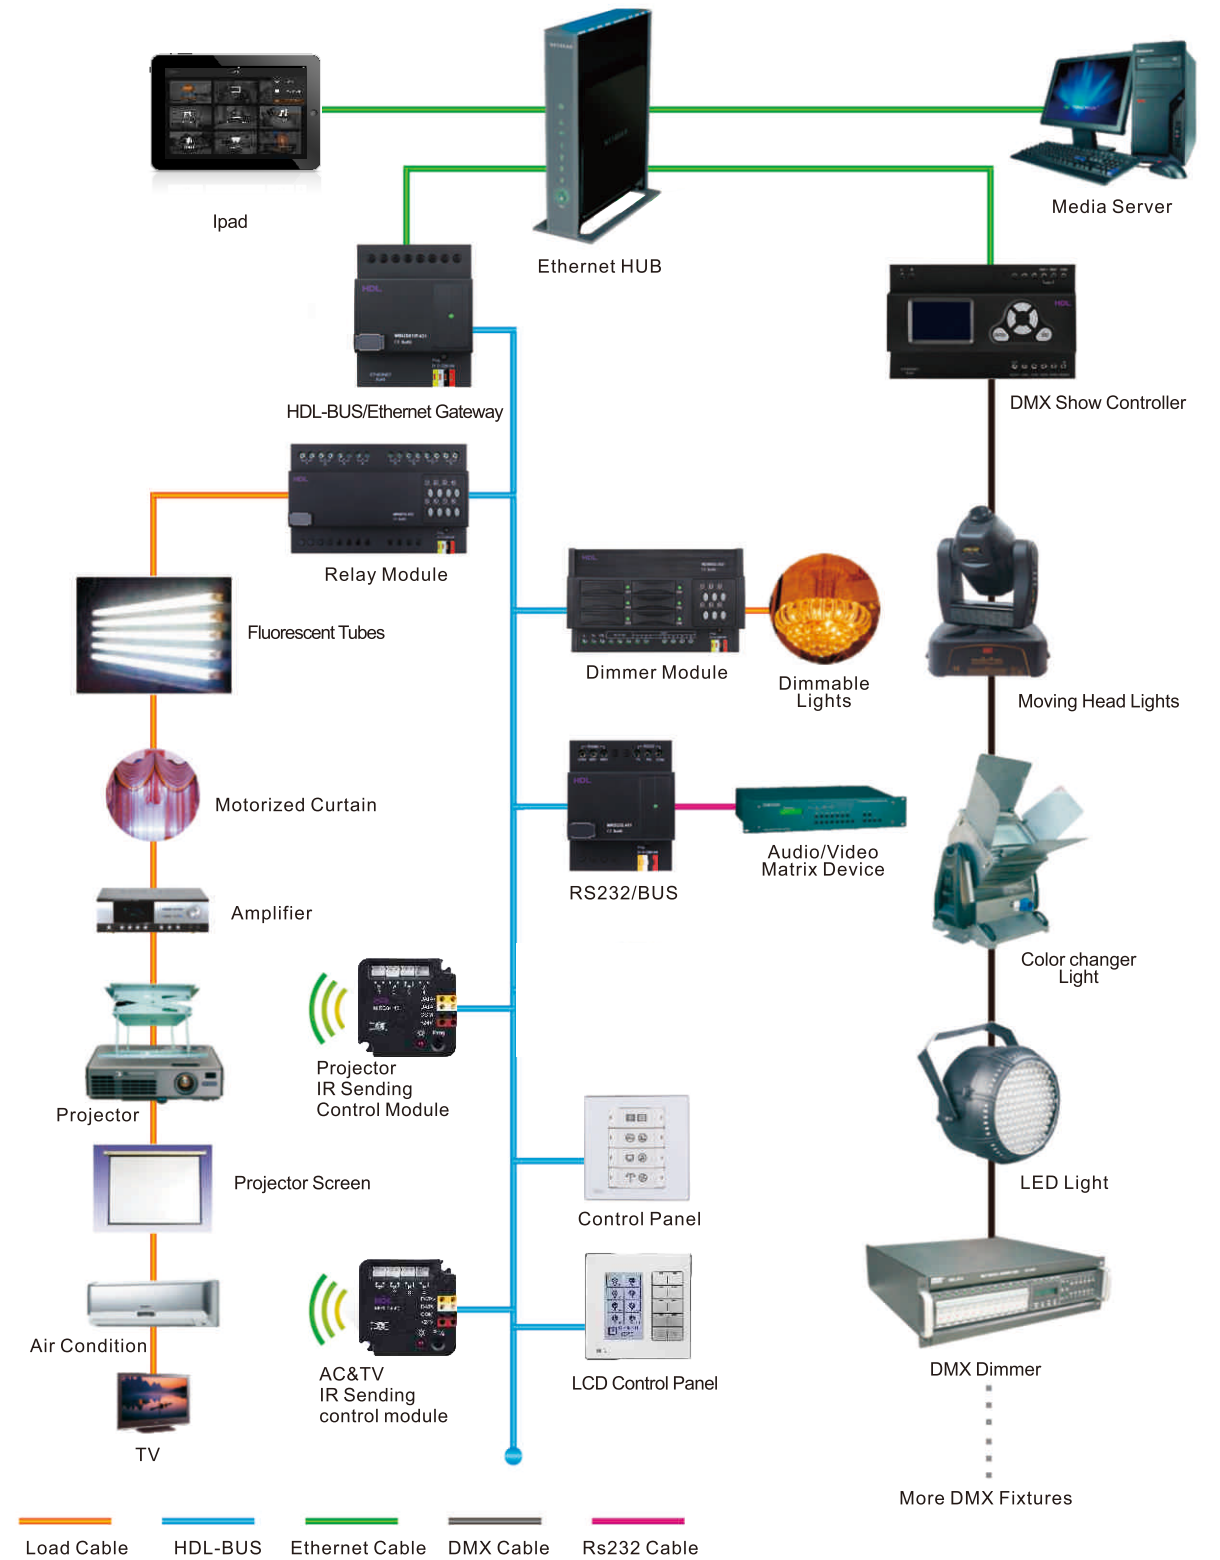

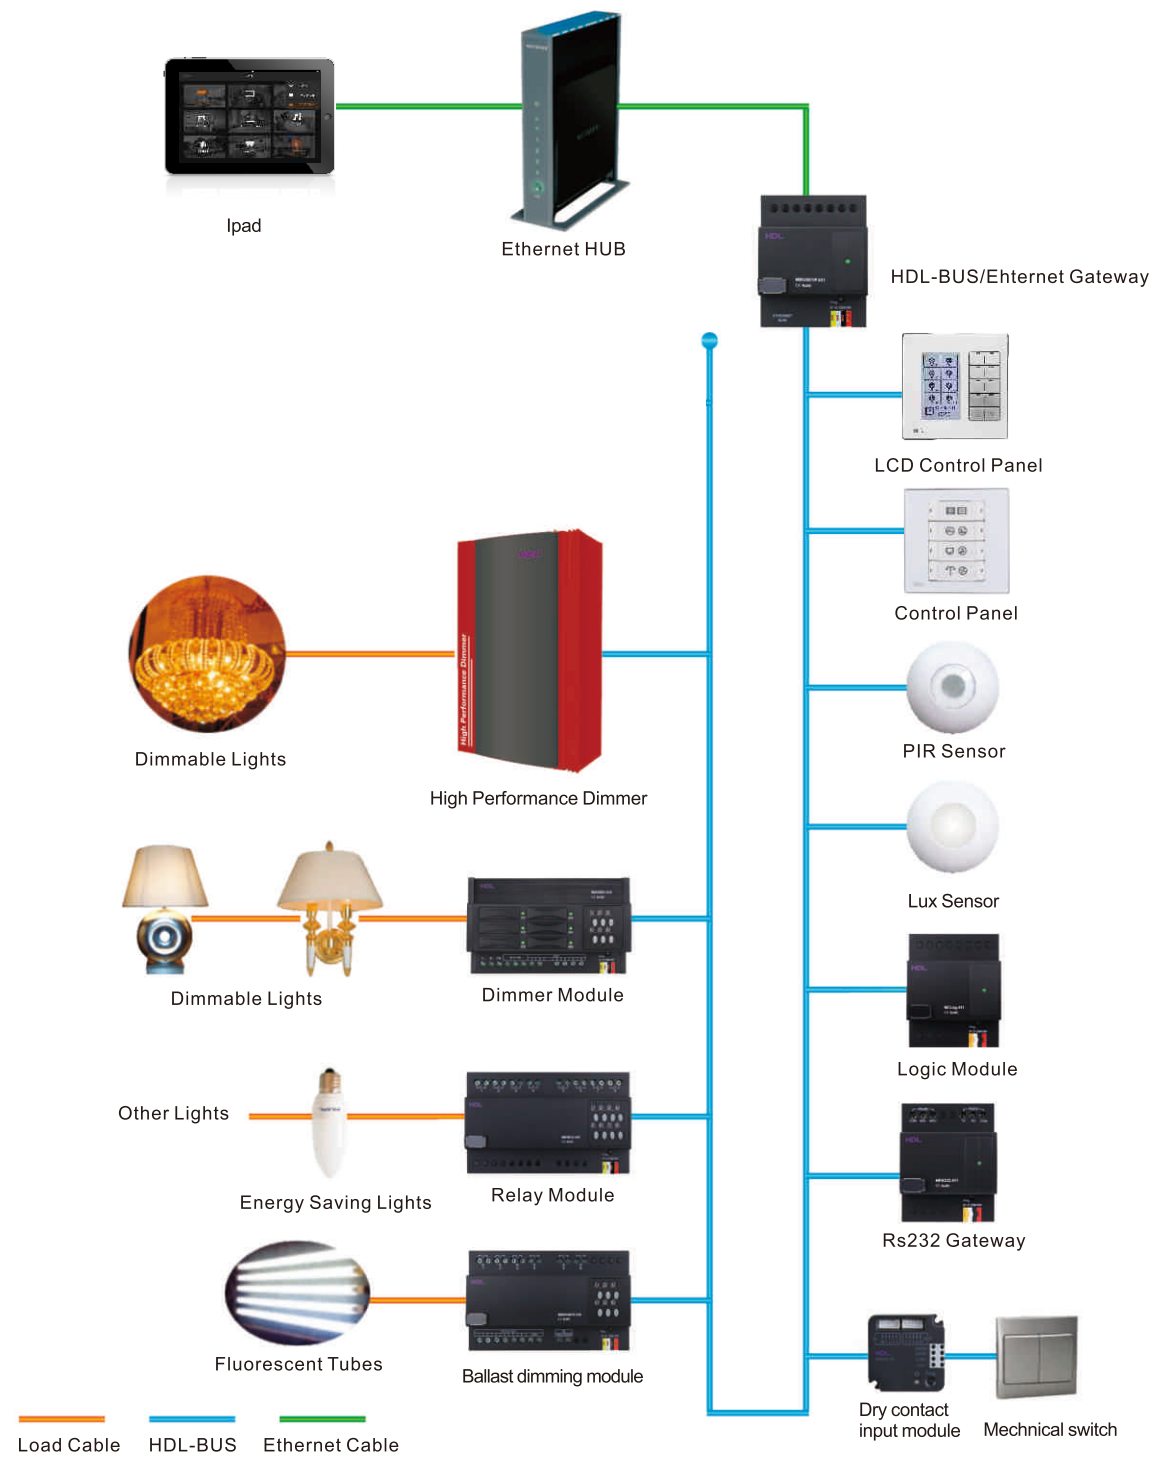

SMART HOTEL SOLUTIONS

INTELLIGENT LIGHTING SOLUTIONS

SMART OFFICE

WELCOME TO HDL'S SHOWROOM

In HDL we think the best way to showcase our products is to allow you to experience them as if they were in your own home. We do this in our comfortable showroom which is situated in Guangzhou, China.

All our guests will feel and test the HDL Buspro technology in all the corners of this smart house, which you are cordially invited to visit, to experience the exciting home automation in its pure state.

“Designed to stimulate your ideas and be a source of inspiration”

“Take a closer look to see how home automation equals comfort and luxury”

“The HDL Buspro training sessions and celebrations take place in the multi-functional auditorium room”

“Feel how different scenes can create different environments and moods in your home.”

“We are eagerly looking forward to your visit. We would love to have you as our special guest!”

“We display useful innovative features, helping you to identify a design with functional benefits to suit your own needs.”

INTERNATIONAL TRAINING FOR HDL Buspro

Join the International HDL Buspro training and get the official HDL high-skilled user certification.

Also visit our factory and learn how the products are created, and how quality control is performed; because the best way to know how HDL Buspro works is to learn it from the engineers who have created it.

Characteristics of the HDL Buspro training

- Every year we arrange three or four international training sessions.
- The training sessions are delivered through fluent English.
- Different levels: basic course and advanced course.
- HDL provides special training for repair parts.
- HDL helps you to arrange all that you need for your trip.
- HDL also provides training in other countries: ask your distributor for details.

INTERNATIONAL EXHIBITIONS

HDL attends different theme exhibitions and fairs. HDL's attractive booth displays different solutions tailored to show the most relevant aspects of HDL Buspro to suit the topic of the specific event, to catch the attention of the new customers who still don't know about HDL Buspro

HDL is always present at the most important events and exhibitions

Description

Nowadays, consumers look for comfort and simplicity. This concept, extended into the home and building automation field, means the ability to have full control of HDL Buspro functions from the everyday devices that everybody has always on hand, like the smartphone or tablet.

HDL On is an app developed by HDL's engineers specially for HDL Buspro. With an attractive design and user-friendly interface, it is perfect for all kinds of people, whether or not they are familiar with the technology. Everybody will enjoy the power of controlling all the functionalities within their house or business with the flick of just a few buttons.

HDL®

buspro

Buspro is a distributed communication bus protocol based on the RS-485 standard, which enables control of all building appliances, and integration with third party software and hardware. It allows technologies to merge and can be expanded in a simplistic manner.

1 Channel Tubular Blind Controller

MVSM45B.12

Common Parameters

- Power Supply: DC16~30V
- Rated voltage: AC220V 50Hz
- Static direct-current power: 0.7W
- Dynamic direct-current power: 1.2W
- Working voltage range: AC190~235V
- Working current: 0.6A
- Rated power: 140W
- Rated torque: 10N.m
- Rated speed: 17r/min
- Terminal: HDL Buspro
- dB: 42dB
- Insulation class: H
- IP class: IP44
- Dimension: Φ45×75.5(cm)

Functions

- Can control to open, close, stop and percentage control
- Communication: HDL Buspro
- AC motor is power source, provide enough power, it can make the torque of tubular motor big enough
- Overheat protection
- Supports online upgrading
- Supports easy programming

MVSM45B.12

The MVSM45B.12 is a tubular blind controller, which has been designed to automate all common roller blinds. The unit can output 10 Nm of torque giving an effortlessly smooth action, and operates at a barely audible 42dB.

↑↓ High torque

Using a single phase AC motor the unit can effortlessly control blinds via its 10 Nm of torque. To provide a user with the ultimate in blind control, the unit has percentage control; stop, up and down control.

🛡️ Reliable

To increase reliability and service life, the MVSM45B.12 utilizes overheat protection. This safeguards not only the unit itself, but the system it is integrated into.

1 Channel Motorized Curtain

MWM70B.22

HDL-MWM70B.22 is the new motorized curtain, it supports open, stop, close and percentage control. And It has manual mode and over heat protection.

Parameters

• Power Supply: AC220V 50HZ
• Rated power: 75W
• Rated torque: 1.2Nm
• Rated speed: 112rpm
• Line speed: 20cm/s
• Insulation class: I.CI.F
• IP class: IP20
• Bus working voltage: DC12-30V
• Bus power consumption: 40mA/DC 24V
• Communication interface: HDL-Buspro
• Interface: RJ11(6P6C)network port

Functions

• Whisper quiet operation at only 40db
• Overload and overheat protection
• Automatic calibration when powered on
• Pulse coding for position control
• Supports forward, reverse, stop, and percentage control
• Able to be manually opened and closed

MWM70B.22

Created to open and close curtains effortlessly, the HDL-MWM70B.22 Motorized Curtain enables curtains to be completely integrated into a Buspro automation system. This lets you control your curtains with the press of a single button, or take full advantage of the Buspro system through:

- Precise percentage control
- Scheduled opening and closing
- Scene and sequence integration
- Intelligent opening and closing based on sensor data
- Remote opening and closing via iOS and Android devices

Load curves(one-motor type)

Load curves(two-motor type)

Touch DLP Panel

MPTL14.46-A

MPTL14.46-A

Parameters

- Working power: 12~30VDC
- DC Current: 45mA/24VDC
- Bus Terminal: 0.75-0.85mm Diameter Single Core
- Housing Material: Glass , ABS, PC
- Installation: GI Wall-Box
- Dimensions: 86x116.5x10.5(mm)

Points For The 'Touch' DLP Panel

7 Different Pages

With 7 separate and easy to navigate pages, a user can take complete control over their lighting, air conditioning, back ground music, floor heating, and security. Each of the pages has 8 buttons providing effortlessly smooth control, and 2 dedicated scrolling buttons. In addition to this located on the bottom of the panel are four customizable shortcut keys, giving you fast and intuitive system navigation.

Customizable

Every aspect of the DLP can be customised, from the on screen icons to the fascia colour, allowing the touch panel to be tailored to any environment or situation. A personalised logo or engraving can even be added to the screen to give you a truly unique solution.

Flush Mount

When the DLP touch panel is coupled with the flush mount system, the panel projects a mere 3mm from the wall. This seamless integration between panel and building has been designed to ensure that the panel is an organic element of the building, and does not intrude upon the aesthetics of a room.

Multi-functional

The DLP touch panel is able to do more than control every system and device in a building. With its built in temperature sensor, data can be sent to the thermostat allowing each room to be monitored independently. This ensures that your heating and cooling solutions are optimized, and work as efficiently as possible.

Customize different plate and frame color

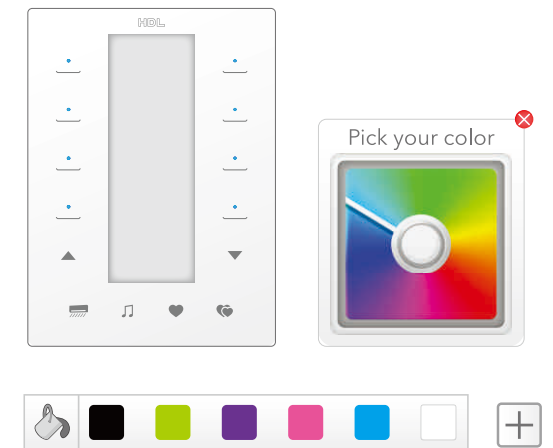

What's your favorite color?

Your Company's Logo In The Switches

Give an excellent branding for your company using customized front plates with the logo of your company or the corporate colors.

Choose The Color That Defines Your Home's Personality

We provide the possibility to print out layout colors, picture or image texture on the front plate that suit your lifestyle or with your interior designer's project. colors.

Enviro Panel

MPTLC43.46-A

MPTLC43.46-A

SIDE

Parameters

- Working voltage: DC12~30V (From HDL-MPPI.46)
- Power consumption: 85mA /DC24V
- Terminal: 0.75-0.85mm Diameter Single Core
- Housing Material: Glass, PC, ABS
- Installation: GI Wall Box
- Dimensions: 86x116.5x10.5(mm) (Normal) 96x126.5x10.5 (mm) (XL)

ENERGY MANAGEMENT

The crowning feature of the Enviro panel is its ability to monitor in real time the electrical and water resources being consumed. This is particularly useful if a user is trying to cut down on their energy usage, or if they simply wish to be notified of excessive energy use.

MULTIPLE LANGUAGES

Designed to be simple to use and easy to understand, the Enviro Panel is able to display multiple languages effortlessly. From English to Japanese, and everything in between, whatever language you speak so does the EnviroPanel. This coupled with customizable icons and fonts makes total building control completely intuitive.

4.3" CAPACITIVE LED

Sporting a 4.3 inch capacitive touch LCD screen, the Enviro Panel allows a user to know at a glance exactly what systems are active. The screen also boasts a cool blue back lit display that is capable of being constantly active, allowing fast location detection in dim or unfamiliar conditions.

MUTIPLE TARGETS

Users can take complete control over every feature of their building, with a single Enviro Panel. From lighting, curtains, music, scenes, sensors, timers, AC, floor heating, and even security solutions. This effortless control enables a user to know exactly what feature or appliance is being used and where.

New generation DLP

New design features such as metal buttons with four left/right keys (in total eight individual buttons) which you can merge together and configure their LEDs. The frame and plate are selectable with different materials and colours to fit in with your lifestyle.

With just one DLP you can control your whole house. Up to 32 buttons distributed through four pages, you can control up to 99 targets with each button, and in total more than 3000 targets like lighting, curtain, blinds, HVAC, heating system, background music, etc.

The new firmware supports 147 different languages, has a user-friendly interface, and provides easy programming functions as well. The DLP panel allows connections with dimmers, relays, curtains, etc. directly without software. All the buttons have the ability to record the state of the rest of buttons and create with them new scenes in the DLP panel. This special function makes creating and changing scenes easy for the end users.

Parameters

- Power supply: DC12-30V
- BUS power consumption: 30mA/DC24V
- Installation: Wall mounting
- Dimensions: 86×86×10.5(mm)

Functions

- Works with MPPI.48 panel power interface
- 8 control buttons, 2 page buttons, button combine function
- Multi Modes for button: Single on/off, single on, single off, combination on, combination off, combination on/off, double click/ single on/ off, double click/combination on/off, momentary, clock timer, short press/long press, short press/long momentary, "hyperlink" etc
- Multi control types for button: Scene, sequence, timer, universal switch, single channel control, curtain, GPRS, panel, broadcast scene, broadcast channel, security, music
- IR remote control, adjustable LCD back light
- Floor heating, air conditioning and music control
- Supports HDL Buspro online upgrading

Parameters

- Working voltage: DC12~30V (From MPPI.48)
- Power consumption: 40mA/DC24V
- Temperature setting range: 0~30°C
- Dimensions: 86×86×10.7 (mm)

Functions

- The panel can control air conditioner's temperature, mode, fan speed and power.
- Supports cooling, heating, dehumidification and fan speeds.
- Supports high, medium, low, auto fan speeds.
- Supports temperature and status display of air conditioner.
- Supports IR, backlight intensity, and power saving mode.
- Supports firmware updates via HDL Buspro software.

- HDL Buspro interface, fast connector need to use HDL Buspro/KNX cable

Installation diagram

MPPI.46-A/MPPI.48-A

Outdoor sensor

MSOUT.4W

MSOUT.4W

Parameters

- Working voltage: DC12-30V
- Power consumption: 31mA/DC24V
- Temperature detection range: -40°C~60°C
- Illumination detection range: 0~15000LUX
- Humidity detection range: 20~95%RH
- Microwave detection range: H:7m D:10m L:6m
- Housing material: ABS; stainless steel
- Installation: Screw fixation
- Dimensions: 126X78X42 (mm)

Functions

- Built-in LUX sensor, microwave sensor, humidity sensor, temperature sensor, dry contact, universal switch
- Two logical relations: OR, AND
- It has 24 logic blocks. Both true logic and false logic can trigger the targets respectively. Each logic can set 20 targets
- Adjustable microwave sensitivity, range is 1-100
- Each logic supports trigger delay time from 0 to 3600s
- The range of universal switch number in logic is 201-248, each logic has 2 universal switch numbers, universal switch can close automatically, the time range is 1-3600s
- Tamper-proof function.
- Supports security function
- Sensor has heating function. It can make sure that the circuits can work normally while the temperature is below -5°C
- Supports online upgrading

Detection Range

Vertical Direction

Horizontal Direction

Temperature, Humidity / Indoor Doppler sensor

SB-CMS-THL / MSW01.4C

SB-CMS-THL

MSW01.4C

Parameters

- Power supply: DC12-30V
- Bus power consumption: 25mA/DC24V
- Temperature detection range: -20~36°C
- Illumination detection range: 0~5000Lux
- Humidity detection range: 20-95°C
- Installation: Ceiling mount
- Dimensions: 80(diameter)x32(mm)

Functions

- Equipped with brightness sensor, temperature sensor, humidity sensor, two dry contact inputs, two universal switches, logic state etc which can be used as input conditions
- Two logic relations: Or, And
- With up to 24 logic block functions, max eight logic input conditions, up to 20 target outputs for logic conditions
- Security warning function, need to be used with the security module

Parameters

- Working voltage: DC12-30V
- Power consumption: 32mA/DC24V
- Temperature detection range: -40°~60°C
- Illumination detection range: 0~5000LUX
- Humidity detection range: 20~95%RH
- Microwave detection range H: 7m D:12m L:6m

Functions

- Built-in LUX sensor, microwave sensor, humidity sensor, temperature sensor, dry contact, universal switch
- Two logical relations: OR, AND
- It has 24 logic blocks, Both true logic and false logic can trigger the targets respectively. Each logic can set 20 targets
- Adjustable microwave sensitivity, range is 1-100
- Each logic supports trigger delay time from 0 to 3600s
- The range of universal switch number in logic is 201248
- each logic has 2 universal switch numbers
- Support security function
- Support online upgrading

12 in 1 Multi-Function / Air Quality Sensor

SB-CMS-12in1 / SB-CMS-LA

SB-CMS-12in1

SB-CMS-LA

Parameters

- Power supply: DC12-30V
- Static power consumption: 40mA/DC24V (Relay off)
- Dynamic power consumption: 90mA/DC24V (Relay on)
- Signal output: HDL Buspro signal
- Temperature detection range: 0°C~45°C
- Illumination detection range: 0-5000 Lux
- PIR sensing range in diameter: 6m (install height-3m)
- Ultrasonic sensor in diameter: 8m
- Installation: Ceiling mount
- Dimensions: 110(diameter)x35(mm)

Functions

- Equipped with a temperature sensor, brightness sensor, infrared motion sensor, ultrasonic sensor, two dry contact inputs, two external input conditions
- With infrared receiver function, can receive eight infrared remote control codes
- With infrared transmitter function, capable of sending 99 infrared remote control codes
- With four logic relations: OR, AND, NOR, NAND
- With up to 32 logic block functions, can be set nine input conditions, each logic block can be set 10 output targets
- 2 relay outputs
- Security function, to be used with the security module
- Support HDL Buspro online upgrading

Parameters

- Power supply: DC12-30V
- Bus power consumption: 25mA/DC24V
- Signal interface: HDL Buspro signal
- Temperature detection range: 0°C~45°C
- Illumination detection range: 0-5000 Lux
- Air quality detection: cigarettes, cooking odors, hydrogen, carbon monoxide, ethanol, methane, isobutane, alcohol
- Installation: Ceiling mount
- Dimensions: 80(diameter)x32(mm)

Functions

- Equipped with brightness sensor, air quality sensor, two dry contact inputs, two universal switches, logic state etc which can be used as input conditions
- Two logic relations: Or, And
- With up to 24 logic block functions, max seven logic input conditions, up to 20 target outputs for logic conditions
- Security function, to be used with the security module
- Support HDL Buspro online upgrading

Ceiling Mount Ultrasonic / Ceiling Mount PIR Sensor

MSPU03.4 / MSP02.4C

HDL 7 IN 1 Sensor / HDL 8 IN 1 Sensor

MSP07M.4C / MSP08M.4C

MSPU03.4C

Parameters

- Power supply: DC12-30V
- Bus power consumption: 30mA/DC24V
- Detection range in diameter: 6m(Installation height: 3m)
- Temperature detection range: 0℃~45℃
- Illumination detection range: 0-500Lux
- Dimensions: 63x63x38(mm)
- Cutting Size: 45mm(Diameter)

Functions

- Equipped with brightness sensor, ultrasonic sensor and universal switch which can be used as logic conditions.
- 24 logic blocks, 20 output targets can be set in each logic block.
- Two logic relations: Or, And
- Sensitivity adjustable, range from 1-10
- Universal switch numbers were assigned to 201-248 in the logic conditions, 2 switch numbers for each logic, universal switch has auto-off function(from 1 to 3600 seconds)
- Logic can trigger the control target no matter it's valid or not
- Security function, to be used with the security module
- Support HDL Buspro online upgrading

MSP02.4C

Parameters

- Power supply: DC18-30V
- Bus power consumption: 20mA/DC24V
- Detection range in diameter: 6m(Installation height: 3m)
- Illumination detection range: 0-5000 Lux
- Dimensions: 63×63×46.6(mm)
- Cutting Size: 45mm(Diameter)

Functions

- Equipped with brightness sensor, PIR sensor and universal switch which can be used as logic conditions.
- 24 logic blocks, 20 output targets can be set in each logic block.
- Two logic relations: Or, And
- Sensitivity adjustable, range from 1-10
- Universal switch numbers were assigned to 201-248 in the logic conditions, 2 switch numbers for each logic, universal switch has auto-off function(from 1 to 3600 seconds)
- Logic can trigger the control target no matter it's valid or not
- Security function, to be used with the security module
- Support HDL Buspro online upgrading

MSP07M.4C

Parameters

- Power supply: DC18-30V
- Bus power consumption: 25mA/DC24V
- Detection range in diameter: 8m(Installation height: 3m)
- Temperature detection range: -20℃~60℃
- Illumination detection range: 0-500 Lux
- Dimensions: 84mm(diameter)×37.5mm

Functions

- Built-in infrared motion sensor, LUX sensor, dry contact, temperature sensor and universal switch control
- Seven logics for brightness sensor, temperature sensor, PIR sensor, two dry contact inputs and logical condition
- Two logic relations: OR, AND
- Adjustable infrared motion sensitivity, range from 1-10
- It has 24 logic blocks. The range of universal switch number in logic function is 201-248, each logic has 2 universal switch number. The universal switch has Auto-Off function, delay time is 1-3600s
- Logic can trigger the control target no matter it's valid or not. Up to 10 logic block functions to trigger the control target
- Supports upgrade from HDL Buspro
- Constant illuminance function

MSP08M.4C

Parameters

- Power supply: DC12-30V
- Bus power consumption: 30mA/DC24V
- IR transmit frequency 38KHz
- Detection range in diameter: 8m(Installation height: 3m)
- Illumination detection range: 0-500 Lux
- Dimensions: 84mm(diameter) × 37.5mm

Functions

- Built-in infrared motion sensor, LUX sensor, IR in/out, dry contact, temperature sensor and external conditions.
- Six logics for brightness sensor, temperature sensor, PIR sensor, two dry contact inputs.
- Two logic relations: OR, AND.
- Adjustable infrared motion sensitivity, range from 1-10.
- It has 20 logic blocks. The range of universal switch number in logic function is 201-240, each logic has 2 universal switch number. The universal switch has Auto-Off function, delay time is 1-3600s.
- Logic can trigger the control target no matter it's valid or not. Up to 10 logic block functions to trigger the control target.
- Up to 240 IR sending control target, the universal switch number is 1-240. It can upload multiple IR code
- Supports upgrade from HDL Buspro
- Constant illuminance function

10A Relay Module

MR0410.431 / MR0810.432 / MR1210.433

MR0410.431

- Output channel: 4channel Relay
- Dimensions: 72×90×66(mm)
- 4 channel relay output
- Maximum 4 separate areas
- Each area has 8 scenes, maximum runtime of scene: 60 minutes

MR1210.433

- Output channel: 12 channel Relay
- Dimensions : 216×90×66(mm)
- 12 channel relay output
- Maximum 12 separate areas
- Each area has 24 scenes, maximum runtime of scene: 60 minutes

MR0810.432

- Output channel: 8 channel Relay
- Dimensions: 144×90×66(mm)
- 8 channel relay output
- Maximum 8 separate areas
- Each area has 16 scenes, maximum runtime of scene: 60 minutes

Parameters

- Power supply: DC15-30V
- Static BUS power consumption: 15mA/DC24V
- Dynamic BUS power consumption: 40mA/DC24V
- Current in each channel: 10A
- life time for relay unit: More than 60,000 times
- Protection: Need MCB for each channel
- Installation: Standard 35mm Din Rail
- Capacity load of Relay: < 150μF

Functions

- 4/8/12 channel relay output
- 4/8/12 separate areas
- Each area has 8/16/24 scenes, maximum runtime of scene: 60 minutes
- Each area has 2 sequences, each sequence has 12 steps
- Each channel has lights protection delay : 0-60 minutes
- Each channel has switch on delay time : 0-25 seconds
- Manual buttons ON and OFF for each channel
- Remote program and management are available
- Can go back to previous scene or designated scene once the system restart
- LED lights available for indicates of each channel
- Staircase lamps function and Mutual exclusion function
- Support easy programming
- Support HDL Buspro online upgrading

16A Relay Module

MR0416.431 / MR0816.432 / MR1216.433

MR0416.431

- Output channel: 4 channel Relay
- Dimensions : 72×90×66(mm)
- 4 channel relay output
- Maximum 4 separate areas
- Each area has 8 scenes, maximum runtime of scene: 60 minutes

Parameters

- Power supply: DC15-30V
- Power consumption: Static power consumption : 10mA/DC24V
Dynamic power consumption: 35mA/DC24V
- Current in each channel: 16A
- life time for relay unit: More than 60,000 times
- Protection: Need exterior protection switch
- Installation: Standard 35mm Din Rail
- Capacity load of Relay: < 300μF

Functions

- 4/8/12 channel relay output
- Maximum 4/8/12 separate areas,
- Each area has 8/16/24 scenes, maximum runtime of scene: 60 minutes
- Each area has 2 sequences, each sequence has 8 steps
- Each channel has lights protection delay: 0-60 minutes
- Manual buttons ON and OFF for each channel
- Remote program and management are available
- Can go back to previous scene or designated scene once the system restart
- Each channel has switch on delay time: 0-25 seconds
- Each area has 2 sequence, the maximum step units of each sequence is same as channel units
- Staircase lamps function and Mutual exclusion function
- Support easy programming
- Support HDL Buspro online upgrading

MR0816.432

- Output channel: 8 channel Relay
- Dimensions : 144×90×66(mm)
- 8 channel relay output
- Maximum 8 separate areas
- Each area has 16 scenes, maximum runtime of scene: 60 minutes

MR1216.433

- Output channel: 12 channel Relay
- Dimensions : 216×90×66(mm)
- 12 channel relay output
- Maximum 12 separate areas
- Each area has 24 scenes, maximum runtime of scene: 60 minutes

Leading Edge TRIAC Dimmer

MD0206.432 / MD0403.432 / MD0602.432

MD0206.432

- Output channel: 2CH/6A
- Fuse: 10 A aR type
- TRIAC: 25A bidirectional TRIAC , minimum load 40W
- Maximum 2 separate areas, each area has 12 scenes

MD0403.432

- Output channel: 4 CH/3A
- Fuse: 8 A aR type
- TRIAC: 25A bidirectional TRIAC , minimum load 40W
- Maximum 4 separate areas, each area has 12 scenes

MD0602.432

- Output channel: 6CH/2A
- Fuse: 4 A aR type
- TRIAC : 16A bidirectional TRIAC , minimum load 40W
- Maximum 6 separate areas, each area has 12 scenes

Parameters

- Power supply: 110/220V
- BUS Working voltage: DC12-30V
- BUS power consumption: 28mA/DC 24V
- Dimming curves: linear, $x^{1.5}$, $x^{2.0}$, $x^{3.0}$
- Dimensions: 144X90X66 (mm)

Functions

- Maximum 2/4/6 separate areas, each area has 12 scenes
- Maximum 6 sequences, each sequence has 12 steps
- 512 dimming step, 4 dimming curves
- Low, high or max threshold are available in each channel to suit the different loads;
- Manual buttons ON and OFF for each channel
- Can go back to previous scene or designated scene once the system restart
- Short circuit protection over temperature protection
- Support easy programming
- Support HDL Buspro online upgrading

Leading / Trailing Edge MOSFET Dimmer

MDT0203.433 / MDT04015.433 / MDT0601.433

MDT0203.433

Parameters

- Power supply: AC110/240V
- BUS Working voltage: DC12-30V
- BUS power consumption: 25mA/DC24V
- Dimming curves: linear, $x^{1.5}$, $x^{2.0}$, $x^{3.0}$
- Dimensions: 216×90×66(mm)

MDT04015.433

Functions

- Maximum 2/4 /6 separate areas, each area has 12scenes
- Each output channel has LED indicator for status and manual switch
- Maximum 6 sequences, and 12 steps for each sequence
- Low Threshold, High Threshold, Maximum Threshold are all available for each channel
- Each channel can choose leading edge or trailing edge
- Can select specified scene or scene before power off when the device restarts
- Short circuit and over heat protection
- 4 dimming curves
- Supports online upgrading

MDT0601.433

2CH 10A Mosfet Power Amplifier / TRIAC Constant Current Load

MDB0210.433 / MCR01A.40

LED Dimmer / 64CH DALI Ballast Dimming Actuator

MDLED0605.432 / MC64-DALI.431

MDB0210.433

Parameters

- AC power input: AC110/230V
- Output channel: 2CH, 10A/CH
- Maximum output channel current in tota: 16A
- Dimming mode: Trailing edge

Functions

- Mosfet dimming mode
- It must work in conjunction with dimmer
- Each output channel has LED status indicator and manual control switch
- It has short circuit protection and over heat protection
- When the temperature of the aluminum alloy radiator on the mosfet power amplifier reaches 80°C, the output power starts to decrease; when it reaches 85°C, stop to output power; when it goes down to 80°C, the output power starts to work again
- Two output channels can be combined into one channel, the output current increase to 16A (The input is the first channel)

MCR01A.40

Parameters

- Power supply: DC 0-240V
- Load constant current: < 15mA
- Working condition : Working temp: -4°C~45°C
- Working relative humidity : up to 90%
- Storage temperature: -20°C~+60°C
- Storage relative humidity: up to 93%
- Dimensions: 37.4×26.7×22.6(mm)

Functions

- 1 load channel
- 15mA constant current
- Working with TRIAC dimmer
- Connected in parallel when working with the lamp

Diagram of constant current

Note: above picture is set HDL TRIAC dimmer as an example, the module can supply minimum 15mA current for TRIAC, this module can solve the flicker problem when dimming the Lamps such as some LEDs and low voltage Halogen.

MDLED0605.432

Parameters

- Power supply: DC15-30V
- Static BUS power consumption: 20mA/DC24V
- Dynamic BUS power consumption: 40mA/DC24V
- Output: 6CH/5A
- LED power input: 12-30VDC
- Dimensions: 144×90×66(mm)

Functions

- Maximum 6 separate areas, each area has 12 scenes
- Maximum 6 sequences, each sequence has 12 steps, each step has 60 minutes as interval time; there are four types of sequence: Forward/Backward/Random/Forward& Backward;
- Low, high or max threshold are available in each channel to suit the different loads;
- Can go back to previous scene or designated scene once the system restart
- Manual buttons ON and OFF for each channel
- Short circuit protection, over load protection
- 5A output current in each channel
- PWM constant voltage output for LED Lamp and LED strip
- Support easy programming
- Support HDL Buspro online upgrading

MC64-DALI.431

Parameters

- Power supply: DC15-30V
- BUS power consumption: 15mA/DC24V
- DALI independent power supply: AC110/220V
- Interface: HDL Buspro, DALI
- Installation: Standard 35mm Din Rail
- Dimensions: 72x90x66(mm)

Functions

- Transform HDL signal into DALI signal
- Up to 64 DALI channels
- Scene controller
- Support maximum 16 independent areas
- Available function for each channel: Low and high threshold, system failure, DALI component electrify restore
- Fire emergency function
- After device reboot, there is a option to run the designated scene or return back to the last 20 seconds scene before power off
- Support HDL Buspro online upgrading

Ballast Dimmer, 0-10V Output / 6CH input & output Module

MRDA0610.432 / MSC06.432

MRDA0610.432

- Current in each relay channel : 10A
- Capacity load : <math>< 150\mu\text{F}</math>
- Support input DC24V
- Sink/output 100mA current for each 0-10v channel, 6 channel total no less than 300mA
- Suitable for 0-10V Fluorescent dimming control
- Suitable for 0-10V LED dimming control

Parameters

- Power supply: DC 15-30V
- Power consumption: 30mA/DC24V
- Installation: Standard 35mm Din Rail
- Dimensions: 144×90×66(mm)

Functions

- 6 channel relay output
- Manual buttons ON and OFF for each channel
- LED lights available for indicates of each channel
- Maximum 6 separate areas, each area has 12 scenes
- Maximum 6 sequences, each sequence has 12 steps, each step has 60 minutes as interval time; there are four types of sequence: Forward/Backward/Random/Forward& Backward;
- Low, high or max threshold are available in each channel to suit the different loads;
- Can go back to previous scene or designated scene once the system restart
- Support easy programming
- Support HDL Buspro online upgrading

MSC06.432

Parameters

- Working voltage: DC15-30V
- Static power consumption: 30mA/DC24V
- Dynamic power consumption: 80mA/DC24V
- Dimensions: 144×90×66 (mm)
- Installation: 35 mm Din Rail

Functions

- Supports input types: Dry contact, Voltage (0~10000mV), Analogy Voltage(0~10000mV, Electricity (4000~20000μA),Analogy Electricity (4000~20000μA).
- Analogy function: it can convert the value of voltage and current conversion into other types, such as temperature, Illuminance, humidness, pressure.
- Out1 to out6 are 10A relay outputs. Out 7 and out 8 are optional, can set 0-10V output or 4mA-20mA output.
- For inputs and outputs, each channel can be set separately.
- It supports online upgrading via HDL Buspro software.
- It supports easy programming.

6CH 10A / 12A Leading Edge Dimming Actuator

SB-WL-D0610 / SB-WL-D0620

SB-WL-D0610

Parameters

- Input Voltage: AC220V±10%
- Frequency: 50Hz±2%
- Power consumption with load: Less than 10W
- Output channel: 6 channels
- Out current in each channel: Max. 12A/24A
- Total current in channe: Less than 60A/120A
- Connection: Three phase and five wires
- Dimensions: 470×290×162(mm), 600×290×162(mm)

Functions

- 10 Bit dimming accuracy.
- 6-channel dimming outputs.
- LED indicator status.
- Scene controller.
- Maximum 6 separate areas, each area has 99 scenes and the maximum running time is 60 min-utes.
- Up to 99 sequences, each sequence has 99 steps and the time interval is 60 minutes for each step, each sequence has 4 running modes of "forward", "backward", "forward and backward" and "random".
- Low, high, max threshold for each channel.
- Each channel has emergency bypass button and debugging bypass button.
- Each scene, area, sequence, channel should mark up.
- Each channel has current load testing.
- Each channel has MCB status testing.
- MCB switch trip warning.
- Bad lights warning.
- Communication: HDL Buspro.
- Provides 400mA current(DC24V) for HDL Buspro.
- Fire protection switch.
- Short circuit and overload protection, earth protec-tion.
- Remote programming and management.
- Device can be restored to previous scene or speci-fied scene, sequence.

SB-WL-D0620

12CH 10A Leading Edge Dimming Actuator

SB-WL-D1210

SB-WL-D1210

Parameters

• Input Voltage: AC220V±10%
• Frequency: 50Hz±2%
• Power consumption with load: Less than 10W
• Output channel: 12 channels
• Out current in each channel: Max. 12A
• Total current in channe: Less than 120A
• Connection: Three phase and five wires
• Dimensions: 600×290×162(mm)

Functions

• 10 Bit dimming accuracy.
• 12-channel dimming outputs.
• LED indicator status.
• Scene controller.
• Maximum 12 separate areas, each area has 99 scenes and the maximum running time is 60 min-utes.
• Up to 99 sequences, each sequence has 99 steps and the time interval is 60 minutes for each step, each sequence has 4 running modes of "forward", "backward", "forward and backward" and "random".
• Low, high, max threshold for each channel.
• Each channel has emergency bypass button and debugging bypass button.
• Each scene, area, sequence, channel should mark up.
• Each channel has current load testing.
• Each channel has MCB status testing.
• MCB switch trip warning.
• Bad lights warning.
• Communication: HDL Buspro.
• Provides 250mA current(DC24V) for HDL Buspro.
• Fire protection switch.
• Short circuit and overload protection, earth protection.
• Remote programming and management.
• Device can be restored to previous scene or specified scene, sequence.

3CH 650mA LED Driver / 48Channel DMX Controller

MLED03650MA / MC48IP-DMX.431

MLED03650MA

Parameters

• Input power: DC10-30V
• Voltage for LED driver: DC10-30V
• Power consumption without load: <2W
• Output channel: 3 channels
• Max Current of each channel: 650mA
• Dimensions: 96mm×58.5mm×22.5mm

Functions

• 3 outputs for common anode RGB LED strip and single LED
• Power Input: DC10-30V
• Control Signal: DMX512
• Constant voltage with PWM output
• Built-in DMX512 buffer function

MC48IP-DMX.431

Parameters

• Power supply: DC12-30V
• BUS power consumption: 40mA/DC24V
• Installation: Standard 35mm Din Rail
• Dimension: 72x90x66(mm)
• Built in ethernet port

Functions

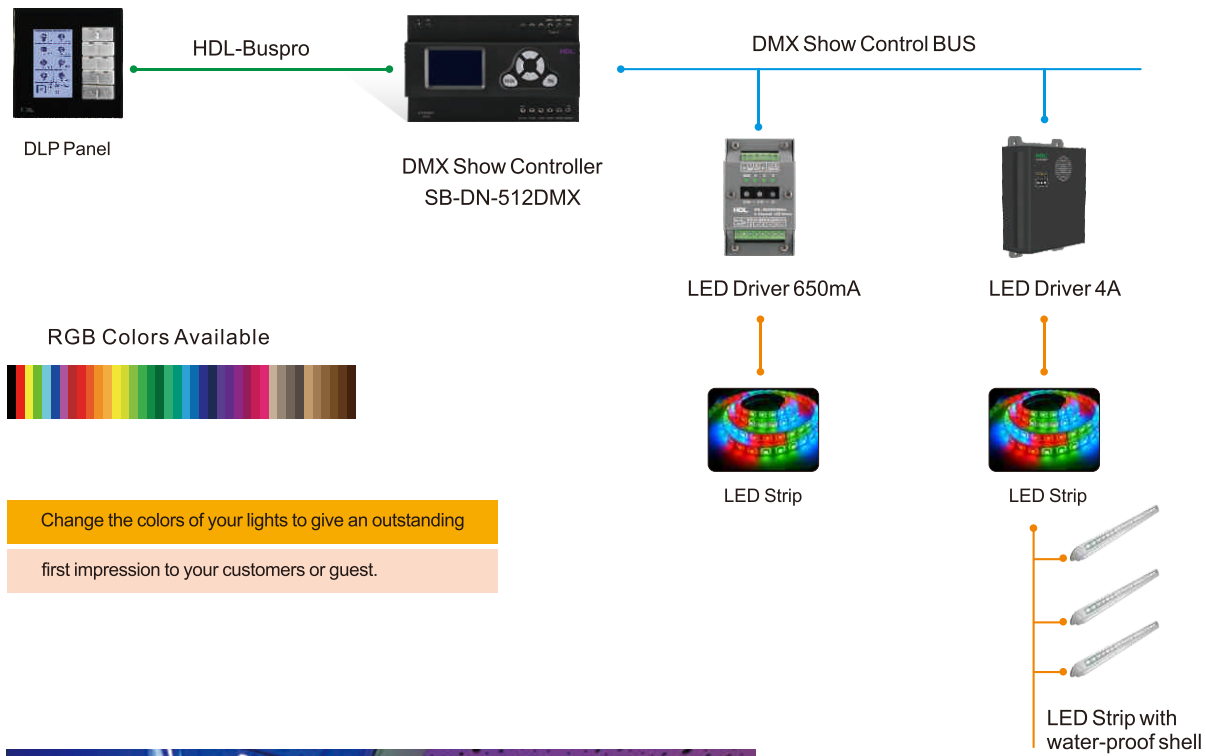

• Up to 48 areas
• Each area has 99 scenes, maximum scene run time:60 minutes
• Up to 99 sequences, each sequence has 99 steps, maximum step run time:60 minutes, 4 modes for the sequences "Forward", "Backward", and "Back and forth", "Random".
• Supports self-program and test functions
• Supports remote program and manage functions
• Low, high, max threshold for each channel
• HDL Buspro and Ethernet double way data communication
• Intelligent data exchange, reducing data traffic
• Device can be restored to previous scene or designated scenes

How to combine HDL Buspro

SB-DN-512DMX

2 Channel Curtain Module / HVAC Module

MW02.431 / MAC01.431

MW02.431

Parameters

- Power supply: DC15-30V
- BUS power consumption: 35mA/DC24V
- Controllable curtain: 2 curtains
- Motor type: Capacitive single phase
- Channel max output current: 5A
- Lifetime for relay unit: 60,000 times
- Installation: Standard 35mm Din Rail
- Dimensions: 72x90x66(mm)

Functions

- 2 channel curtain control
- Hardware and software interlock for forward or backward
- Forward and backward delay

MAC01.431

Parameters

- Power supply: DC15-30V
- BUS power consumption: 95mA/DC24V
- Max relay current load: 5A
- Installation: Standard 35mm Din Rail Installation
- Dimensions: 72x90x64(mm)

Functions

- Fan speed: High, medium or low
- Control mode : cooling, heating, dehumidification
- To control AC fan speed and mode smartly by AC control panel
- Supports input from up to four temperature sensors
- One master module supports up to 8 slave modules
- DC0-10V fan speed control method
- Supports HDL Buspro online upgrading

6CH Floor Heating Module / 4CH Electric Fan Controller

MFH06.432 / MSD04T.40

4CH IR Emitter with Current Detection / 8 Zone Dry Contact Module

MIRC04.40 / MSD08.40

MFH06.432

Parameters

- Power supply: DC15-30V
- Dynamic power consumption: 150mA/DC24V
- Static power consumption: 30mA/DC24V
- Output channel: 6
- Maximum channel current: 10mA/DC24V (0-10V output)
1A/220VAC (Relay output)
- Lifetime for relay unit: 5,000,000 times
- Protection: External breaker
- Dimensions: 144x90x66(mm)

Functions

- 6 channels floor heating or cooling control
- 2 output ways in each channel: relay output and 0-10V output
- Temperature adjustment range: 5°C~40°C (0.5°C accuracy)
- Timing or manually floor heating system flush function
by timer or manually
- Supports controlling external high power relay modules
- Supports HDL Buspro online upgrading

MFAN04.432

Parameters

- Bus voltage: DC18-30V
- Power consumption: 80.5mA/DC24V
- Dimensions: 144mm×90mm×66mm
- Installation: 35 mm Din Rail

Functions

- The MFAN04.432 can simultaneously support four fans
- The MFAN04.432 can be controlled via a HDL panel
- Each channel can output 8 fan speeds; 0 being off and 7 being maximum
- Through output different voltage to control wind speed
The MFAN04.432 can be easily programmed
- The MFAN04.432 communicates via the HDL Buspro protocol

MIRC04.40

Parameters

- Buspro power supply: DC12-30V
- BUS power consumption: 30mA/DC24V
- IR Transmit carrier frequency: 38KHz
- Dimension: 45x45x16(mm)
- Distance for IR control: 6m

Functions

- Current detection: Detect the device status (on/off) by current.
- Drive the transmitting tube directly
- 4 IR emission channels
- Supports 24 devices and 100 learning IR codes.
- Supports up to 99 UV switches

MSD08.40

Parameters

- Power supply: DC12-30V
- BUS power consumption: 10mA/DC24V
- Dimensions: 45x45x16(mm)

Functions

- 8-channel dry contact input with tamper detection function.
- Supported switch type: Mechanical switch, Single on, Single off, Single on/off, Combination on, Combination off, Multi-function, Parallel switch.
- Supported switch mode: Switch mode, Dimmable two-way, dimmable increase, dimmable reduced.
- Control target type : Scene, Sequence, Universal Switch, Single channel lighting control, Broadcast Scene, Broadcast channel, Curtain Control, Panel Control, GPRS control, Security Module etc.
- Tamper-proof, need 1K Ohm resistor in parallel to dry contact.
- Security function, need to be used with the security module.
- Supports online upgrading by HDL Buspro.

Infrared Code Learner / Smart IR Transmitter with Temperature

SB-IR-Learn.01 / SB-IR-EM

SB-IR-Learn.01

Parameters

- Frequency of IR: 38K Hz \pm 20%
- Installation: USB 2.0 Interface
- Dimension: 98x70x38(mm)
- For Learning IR codes, sending learned IR codes for test
- Indicator LED flashing when learning code

Functions

- USB Interface, no driver and easy to use
- Infrared Code learning
- Infrared Code sending test
- Indicator will flash when the device is learning the IR Code

SB-IR-EM

Parameters

- Buspro power supply: DC12-30V
- Buspro power consumption1: 5mA/DC24V
- IR codes store Maximum: 200 IR codes
- Sending carrier wave frequency: 38KHz
- Distance for IR Control: 6m
- Dimension: 45x40x13(mm)

Functions

- Current detecting function for identify device On/Off status.
- Maximum 200 IR Codes can be stored.
- To send the IR codes by using a IR LED.
- Supports upgrade from HDL Buspro.

4 Zone Dry Contact Module / 24 Zone Dry Contact Module

MSD04T.40 / SB-DN-DRY-24Z

MSD04T.40

Parameters

- Buspro power supply: 12-30VDC
- Buspro power consumption: 10mA/DC24V
- Dimensions: 45x45x16(mm)

Functions

- 4-channel dry contact input with tamper detection.
- Supports temperature input
- LED indicators display status
- Support switch type: Mechanical switch, Single on, Single off, Single on/off, Combination on, Combination off, Combination on/off, Multi-function, Parallel switch, Temperature sensor.
- Support switch mode: Switch mode, Dimma-ble two-way, dimmable increase, dimmable reduced.
- Control Target type: Scene, Sequence, Uni-versal Switch, Single channel lighting control, Broadcast Scene, Broadcast channel, Curtain Control, Panel Control, GPRS control, Secu-rity Module, etc.
- Security function, need to be used with the security module.
- Temperature alarm, when the temperature is beyond the range it will be alarm.
- Supports online upgrading by HDL Buspro.

SB-DN-DRY-24Z

Parameters

- Power supply: DC24V
- BUS power consumption: 12mA/DC24V
- Dimensions: 144 x 90 x 66mm
- Installation: Standard 35 mm Din Rail

Functions

- 24 channels dry contact input
- Switch types include: Mechanical switches, Single-on, Single-Off, Single-On/Off, Combination on, Combination off, Combination On/Off, Invalid Switch, (Both mechanical switches and combination switches can set 49 control targets)
- Control target type: Scene, Sequence, Universal, Switch, Single Channel, Broadcast scene, Broadcast channel, curtain control, panel control, GPRS and so on.
- Security alerts feature need to be used together with Security Command Module

RS232 / RS485 Gateway

MRS232.431 / MRS232U.431

HDL-BUS EIB Gateway / 1 Port Programming Gateway

SB-DN-EIB / MBUS01IP.431

MRS232.431

MRS232U.431

SB-DN-EIB

MBUS01IP.431

Parameters

- Working voltage: DC15~30V
- BUS power consumption: 15mA/DC24V
- Baud rate: 1200, 2400, 4800, 9600, 14400, 19200, 38400, 57600, 115200bps
- Data bit: 8
- Stop bit: 1, 2
- Communication: HDL Buspro/RS232/RS485
- Dimensions: 72x90x66(mm)

Parameters

- Working voltage: DC15~30V
- BUS power consumption: 15mA/DC24V
- Baud rate: 1200, 2400, 4800, 9600, 14400, 19200, 38400, 57600, 115200bps
- Data bit: 8
- Stop bit: 1, 2
- Communication: HDL Buspro/RS232/RS485
- Dimensions: 72x90x66(mm)

Parameters

- KNX Power supply: DC15-30V
- KNX power consumption: 5mA/DC24V
- Interface: HDL Buspro EIB-BUS (KNX)
- Programming software: HDL Buspro setup tool
- Installation: Standard 35mm Din Rail
- Dimensions: 72x90x66(mm)

Parameters

- Power supply: DC12-30V
- BUS power consumption: 40mA/DC24V
- HDL Buspro subnet numbers: 1 HDL Buspro subnet
- Signal interface: HDL Buspro, Rj45
- Installation: Standard 35mm Din Rail
- Dimensions: 72x90x66(mm)

Functions

- Realize mutual control between devices in RS232 and HDL Buspro.
- Achieve remote transmission from RS232 to RS485.
- It can achieve that RS232 controls HDL Buspro and HDL Buspro controls RS232.
- It can input up to 99 control commands, each control commands can input up to 33 ASCII characters.
- It can achieve that RS485 controls HDL Buspro and HDL Buspro controls RS485.
- RS232 Baud rate: 1200, 2400, 4800, 9600, 14400, 19200, 38400, 57600, 115200bps. User can set the RS232 interface Baud rate.
- Communication: HDL Buspro, RS232, RS485
- Supports online upgrades.

Functions

- Communication: HDL Buspro, RS232, RS485.
- It can achieve that RS232 controls HDL Buspro and HDL Buspro controls RS232.
- It can achieve that RS485 controls HDL Buspro and HDL Buspro controls RS485.
- It can input up to 100 control commands, each control commands can input up to 33 ASCII characters.
- Target number :1~10
- User can set the RS232 interface Baud rate.

Functions

- HDL Buspro and KNX two ways data converting
- Supports multiple types of data points
- Can be set up to 254 goals in two-way conversion control

Functions

- HDL Buspro and Ethernet double way data communication
- support internet remote access connection
- Intelligent data exchange, reducing data traffic

IntelliCenter Model / 750mA Power Supply Module

MSERVER/D.20 / MSP750.431

1200mA / 2400mA Power Supply Module

MSP1200.431 / SB-DN-PS2.4A

MSERVER/D.20

MSP750.431

MSP1200.431

SB-DN-PS2.4A

Parameters

- Working voltage: 12~30VDC
- Power consumption: 2.5W max.
- Communication: 1RJ45, HDL Buspro, KNX Bus
- BUS Terminal: 0.6-0.8mm diameter single core cable
- Operation system: iRidium Server software
- Dimensions: 72x90x66(mm)

Parameters

- Input voltage: AC85-260V 50~60Hz
- Output current: 750mA
- Output voltage: DC24V
- Output ripple wave: Less than 150mV
- Dimensions: 72x90x66(mm)

Parameters

- Input voltage: AC85-260V 50~60Hz
- Output current: 1200mA
- Output voltage: DC24V
- Output ripple wave: Less than 150mV
- Dimensions: 72x90x66(mm)

Parameters

- Input voltage: AC220V/AC110V±10%
- Frequency: 50~60Hz
- Output current: 2.4A
- Output voltage: DC24V
- Dimensions: 144×90×66 (mm)

Functions

- Supports continuous monitoring and management the devices in HDL BusPro and KNX-bus network via the iRidium Server software.
- Supports installing SD card to expand the storage capacity.
- Supports easy programming.
- Exchange data between devices in HDL BusPro and KNX bus network .
- Support online upgrades.
- Supports HDL Buspro and KNX Bus communication.

Functions

- Protection: Short circuit and over current protection
- Voltage Supply: DC24V
- Ripple Wave: Less than 150mV

Functions

- Protection: Short circuit and over current protection
- Voltage Supply: DC24V
- Ripple Wave: Less than 150m

Functions

- Protection: over voltage and short circuit
- Power Supply: DC24V

Security Command Module / Logic Automation Module

MSM.431 / MCLog.431

HDL BUS 6 Lines / HDL 6 Ports Switch

MBC06.431 / MBR06.431

MSM.431

MCLog.431

MBC06.431

MBR06.431

Parameters

- Working Voltage: DC15-30CV
- Power Consumption: 15mA/DC24V
- Dimmensions: 72mm x 90mm x 66mm
- Installation: Standard 35mm DIN Rail
- Interface: HDL Buspro

Functions

- 8 Separate zones for different security purposes
- Multiple security modes: Away, Holiday, Daytime, Nighttime, Timing, Etc.
- Multiple alarm modes: Invasion, Gas, Fire, Temperature, Emergency, Etc.
- Multilevel security protection
- Can set up security protection for 8 zones simultaneously
- Availability to check the alarm log
- Send commands to the GPRS SMS Controller or DialOut to send SMS messages or call to the emergency contact to ask for help or alarm's notifier in case of security problem
- Online upgrading is available

Parameters

- Power supply: DC15-30V
- BUS power consumption: 15mA/DC24V
- Installation: 35mm Din Rail Installation
- Dimensions: 72x90x66(mm)

Functions

- Editable daily events
- Maximum 12 logic blocks, each block has 20 logic tables, tables can be connected with each other
- Maximum 4 input conditions and 20 output targets in each logic table
- Logic table input conditions: Time, status of channel, external inputs, universal switch etc
- Logic relations: and, or, nand, nor
- Support HDL Buspro online upgrading

Parameters

- Interface: 6 fast connections for HDL Buspro
- Installation: Standard 35mm Din Rail
- Dimensions: 72mm x 90mm x 66mm
- Protection: Ip20

Functions

- Simple method to interconnect 6 different HDL Buspro Lines.
- Easy installation and maintenance

Parameters

- Working voltage: DC 12-30V
- Power consumption: 10mA/24VDC
- Ports: 6
- Devices for each port: 0-63
- Communication: HDL Buspro
- Housing material: Nylon, PC
- Installation: 35mm Din rail installation
- Dimensions: 72x90x66(mm)

Functions

- Filter data
- Check the data
- Supports 6 bus cables, each bus cable can connect up to 63 devices
- Communication: HDL Buspro
- Supports online upgrading

HomePlay Network Player

MZBOX-A50B.30

MZBOX-A50B.30

Better Together.

Quickly and intuitively browse through the entirety of your music collection.

With the ability to directly play files from network attached storage devices (NAS), an onboard Micro SD card slot, an onboard USB port, and your connected iOS & Android devices total audio management has never been easier.

This coupled with native MP3, WMA, AAC, AAC+, ALAC, FLAC, APE, and WAV format support makes all your music just a tap or click away.

Multi-platform Compatibility.

At HDL we know that everyone has their preferred method of audio storage. That's why we've given HomePlay true multi-platform compatibility.

With Bluetooth and WiFi connectivity, a LAN port, and a USB port HomePlay can directly connect to your audio library. Seamlessly controlled through the HDL On app, you can stream all of your favorite tracks to any room to create your ideal audioscape.

Parameters

- HDL-M/MPT14.1-A2-46 : 5W+5W(8Ω/ohms 1kHz ,0.027%)
- 32W+32W(6Ω/ohms,1kHz, 0.7%) 40W+40W(8Ω/ohms, 20Hz-20kHz, 5%)
- Speaker Impedance : 4-32Ω
- Dynamic Range : >87dB
- S/N Ratio : >88 dB
- Stereo Separation: >81.5dB (1KHz)
- Frequency Response: 20Hz to 20KHz (±3dB)

Functions

- Stream your music in high quality
- Stream your music anywhere in your room
- Stream music from different device
- Play from variety of sources
- Start music for all rooms like a party
- Multi-Way for connection
- New features and services available by global online update

Hotel Doorbells / Air Condition Switch

MPB01.48 / MPB03.48 / MPAC01.48

Parameters

- Power supply: DC12-30V
- BUS power consumption: 24mA/DC24V
- Installation: Wall mounting
- Dimensions: 86×86×22.2 (mm)

Functions

- PRIVACY status display;
- Visiting function ;
- Support HDL Buspro online upgrading

Parameters

- Power supply: DC12-30V
- BUS power consumption: 25mA/DC24V
- Installation: Wall mounting
- Dimensions: 86×86×22.2(mm)

Functions

- Visiting function, time setup • Backlight brightness adjustable
- Do not disturb • Support HDL Buspro upgrading
- Please clean

Parameters

- Power supply: DC12-30V
- BUS power consumption: 25mA/DC24V
- Installation: Standard GI box
- Dimensions: 86×86×22.2(mm)

Functions

- Control temperature, speed, mode, on/off
- Air conditioning mode: cooling, heating
- Speed: high, low, medium
- Display indoor temperature and air condition status etc
- Support HDL Buspro online upgrading

MPB01.48

MPB03.48

MPH101.48 MPH102.48 MPH104.48 MPH108.48

MPAC01.48

Hotel Master Card Switch

MPCH01.48 / MHIC.48

MPCH01.48

Parameters

- Power supply: DC12-30V
- BUS power consumption: 24mA/DC24V
- Card type: MIFARE ONE S50 13.56MHZ
- Installation: Wall mounting
- Dimensions: 86×86×32(mm)

Functions

- Insert key for power
- Identification, insert a different card, run the corresponding scene
card types: Guest card, service card, cleaner card, maintainer card, administrator card etc
- Can be set mechanical switch when plug the card, the switch can be set 1 to 49 targets.
- Other key mode can be set 1 to 99 targets
- Support HDL Buspro online upgrading

MHIC.48

Parameters

- Power supply: DC12-30V
- BUS power consumption: 24mA/DC24V
- Card type: MIFARE ONE S50 13.56MHZ
- Installation: Standard GI and EU box
- Dimensions: 86×86×20.5(mm)

Functions

- Works with MPPI.48 panel power interface
- Insert key for power
- Identification, insert a different card, run the corresponding scene
- Card types: guest card, servicing card, cleaner card, maintainer card, administrator card etc
- Can be set mechanical switch when Plug the card, the switch can be set 1 to 49 targets. other key mode can be set 1 to 99 targets
- Supports HDL Buspro online upgrading

Hotel Door Bell

SB-3S-Bell-XS / SB-3S-Bell / HDL-MPTB01RF.48

Parameters

- Power supply: DC12-30V
- Bus Power consumption: 45mA/DC24V
- Dimension: 105 x 170 x 40mm
- Installation: Back Box for HDL

Functions

- Show different Number of Room, DND, Clean Room, and Laundry
- Door Bell • Open the Door by RF card & history record function
- Support HDL Buspro online upgrading

Parameters

- Power supply: DC12-30V
- Bus Power consumption: 45mA/DC24V
- Dimension: 105 x 170 x 40mm
- Installation: Back Box for HDL

Functions

- Show different Number of Room, DND, Clean Room, and Laundry
- Door Bell • Support HDL Buspro online upgrading

Parameters

- Working Voltage DC12-30V(From MPPI.48)
- Buspro power consumption 45mA/DC24V
- Card type MIFARE ONE S50 13.56MHz

Functions

- Backlight RGB can be optional. • Door bell for visitors.
- The touch sensitivity can be adjusted.
- Supports to upgrade from HDL-Bus.

SB-3S-Bell-XS

SB-3S-Bell

MPTB01RF.48

RF Card Reader & Master Control

MPTC03.48 / MPTC03.46

MPTC03.48

Parameters

- Working voltage: DC13-30V
- Power consumption: 60mA/DC24V
- Dynamic power consumption: 300mA/DC24V
- Dimension: 86×116×20.4(mm)(US)
86×86×20.4(mm)(EU)

MPTC03.46

Functions

- Master card for energy & power management.
- 3 touch buttons, sensitivity can be adjusted
- Button color RGB can be adjusted
- The touch button can be as the panel button to use, or work with HDL touch door bell panel, to be displayed DND, Clean, Wait.
- Control of mechanical switch can be configured when insert the card or take off the card, maximum 49 targets can be controlled by the switch. Maximum 99 targets can be controlled by other button modes
- Support HDL online upgrading

Hotel IO Module / RCU Hotel Guest Room Control Unit

MHIOU.432 / MHRCU.433

MHIOU.432

Parameters

- Power supply: DC15-30V
- BUS power consumption: 30mA/DC24V
- Dynamic power consumption: 180mA/DC24V
- Communication: HDL Buspro
- Buspro terminal: 0.75-0.85mm diameter single-core cable
- Dimension: 144×90×56.3 (mm)

Functions

- OUTPUTS:**
- Channel 1 and 2 are dimming outputs, total current no more than 2A
 - Channel 3 to 10 are switch outputs, each channel 5A
 - Channel 11 and 12 are curtain switch control
- INPUTS:**
- 14-channel dry contact input
 - 3-channel indoor doorbell control and 3-channel status indicator output
 - 1-channel outdoor door bell control and 3-channel states indicator output
 - 1-channel door bell switch control

MHRCU.433

Parameters

- Power supply: DC20-30V
- Static power consumption: 60mA/DC24V
- Dynamic power consumption: 300mA/DC24V
- Signal interface: HDL Buspro, RJ45, INNER Buspro RJ45 interface: UDP/IP network interface
- STRIAC: 16A TRIAC, minimum load is 30w
- Buspro terminal: 0.75-0.85mm single-core cable
- Dimension: 216×90×56 (mm)

Functions

- The host control functions:
- 48 Channel control
 - Total 99 scenes, each scene's running time is (0-250second)
 - Can run the scene according to the status of card master
 - Hotel host have RJ45 port for connectivity with another room and reception or manager center, with hotel manager software this module can integrate with third part property manager software
- Mix control function:
- Channel NO.1-13 are Relay output, each channel 5A.
 - Channel NO. 14-17, are relay output, each channel 10A
 - NO.18 - 21 channels for dimming, each channel 1A
- Dry contract:
- 24 channels dry contract input
- Door bell function:
- 5 channels state indicator output
- LED output function
- 6channels normal switch state indicator output

Hotel Room Control Host / 4CH 0.5A Universal Dimming Actuator

MHC48IP.431 / MHD04A.231

5 CH Switch Actuator / 20 CH Hotel Room Mix Control Module

MHR05L.231 / MHD02R18U.232

MHC48IP.431

MHD04A.231

MHR05L.231

MHD02R18U.232

Parameters

- Working power: DC12~30V
- Bus Power Consumption: 30mA/DC24V
- Installation: 35mm DIN rail installation
- Dimension: 72 x 90 x 66mm

Functions

- 48 channels control, each channel has parameter for lower limit, higher limit, the maximum limit
- There are totally 99 scenes, each scene's running time is 0-60 minute.
- Each channel has protection delay time (0-250 second).
- Each channel can delay the turn ON time (0-250 Second).
- It can run the scene according to the status of card master
- Monitors and controls A/C, curtain, lighting, room status, service from monitor software.
- There is an RJ45 port on the hotel host, it can connect to each room, reception or manager center. With hotel manage software, this module can integrate with third party management software.

Parameters

- Working voltage: DC15~30V
- Static power consumption: 40mA/DC24V
- Dynamic power consumption: 55mA/DC24V
- Output channel: Can switch four 0-10V dimming channels output to MOSFET tube dimming output
- MOSFET tube output channel: 0.5A
- Protection: Connect a breaker in each channel
- Dimension: 72 x 90 x 66mm

Functions

- The dimming module can switch four 0-10V dimming channels output to MOSFET tube dimming output.
- The dimming module ID supports hardware identification, and adopts dial code control;
- It also can control air conditioners, curtains etc. via modifying the configuration of software and program;
- Inner Bus communication is adopted.

Parameters

- Working voltage: DC15~30V
- Static power consumption: 23mA/DC24V
- Dynamic power consumption: 75mA/DC24V
- Input channel: 2CH mains supply input 2CH emergency supply input
- Output channel: 5 channels
- Relay: 2CH/10A magnetic latching relay 1CH/5A TV8 relay
- Electronic life time of relay: >60000 (Resistance Load)
- Protection: Connect a breaker in each channel
- Dimension: 72 x 90 x 66mm

Functions

- The relay module ID supports hardware identification, and adopts dial code control;
- COM1, OUT3 and COM3, OUT5 are 2CH magnetic latching relay; COM2 and OUT4 is a TV8 relay channel; E-L1, E-L2 and E-N are 2CH emergency supply input; M-L1, M-L2 and M-N are 2CH mains supply input; L1, N1 and L2, N2 are output channels;
- The relay module has 2 relay channels with emergency function and 3 universal relay control channels;
- It also can control air conditioners, curtains etc. via modifying the configuration of software and program;
- The relay module can be extended to several module groups and used in some more sophisticated scenes;
- Inner Bus communication is adopted.

Parameters

- Working power: DC15-30V
- Static power consumption: 30mA/DC24V
- Dynamic power consumption: 350mA/DC24V
- Relay output: 5A/10A resistive loads
- Dimming output: 2A silicon-controlled rectifier outputs
- Dimension: 144×90×66 (mm)

Functions

- Channel 1 to 5 are normal FCU controls, such as controls on cooling, heating and fan speeds. Channel 1,2 and 3 control fan speed, channel 4,5 are cooling and heating valves
- Channel 6 to 13 are ordinary relay outputs. Each channel is 5A rated outputs. The load types are Incandescent lamp, Halogen lamp, Low-voltage halogen lamp, LED lights. It is not recommend connect to capacitive load.
- Channel 14 to 18 are ordinary outputs. Each channel is 10A rated outputs. The load types are Incandescent lamp, Halogen lamp, Low-voltage halogen lamp, LED lights. It is not recommend connect to capacitive load.
- Channel 19 to 20 are silicon-controlled rectifier outputs. Each channel is 2A rated output.
- Communication: INNER-Buspro.

buspro
WIRELESS

Utilizing a wireless mesh IEEE 802.15.4 communication network, the HDL wireless panel range can be installed anywhere in a building without needing a physical connection to the Buspro mainframe. Using frequencies of 780-794 MHz (China), 864-882 MHz (Europe), and 904-928 MHz (North America), the connection can fulfill the long distance communication frequency standard applying in different countries, which ensures efficient and precise data transmission.

Wireless Intelligent Switch

MPL8-RF.18 / MPL8-RF.16

Parameters

- Power supply: DC5V (from wireless power interface)
- Power consumption: 55mA/DC5V
- Wireless transmit power: +10dbm
- Wireless receive sensitivity: -90dbm
- Installation: Wall mounting
- Dimensions: 86×86×10.5(mm)

Functions

- Built-in temperature sensor.
- Specified pages for AC, floor heating, music, etc.
- Multi key mode: Single on-off, Single on, Single off, Combination on-off, Combination on, Combination off, Double click/single switch, Double click/combination switch, Momentary, Clock, Short/Long press, Short Press/Long jog.
- Multi key control modes: Scene, Sequence, Timer switch, Universal switch, Single channel lighting control, Broadcast scene, Broadcast channel, Curtain switch, GPRS control, Panel control, Security module, Z-audio control
- Supports online upgrading.

MPL8-RF.18

The HDL-MPL8-RF is a wireless panel which is able to work in conjunction with the wireless power interface. Featuring an improved and customizable LCD display, the HDL-MPL8-RF enables users to find information effortlessly.

Electronic icons

The new HDL-MPL8-RF has an improved LCD screen that is capable of displaying multiple icons, which can then be customized via an extensive updatable icon library. Messages, device status, and percentage information can all be displayed, enabling a user to find information effortlessly.

All in one

In a single HDL-MPL8-RF panel there are seven different pages dedicated to the control of common automation systems. The following systems are included, four pages dedicated to lighting, one page dedicated to HVAC, one page for floor heating, and one page for background music. Each page can hold multiple targets enabling the user to take complete control over all aspects of their automation solutions, with one unifying HDL-MPL8-RF panel.

Customizable

The HDL-MPL8-RF panel is completely customizable, and has an extensive range of fascia colours, and materials available. This tailoring even extends to the LED button status indicators which have adjustable light intensity levels. The module can also be incorporated into a double panel installation, or can be flush mounted. These customization options allow a user to have their exact requirements not only met, but exceeded.

White Glass

Black Glass

MPL8-RF.16

Wireless Touch Button Switch

MPT4-RF.18

MPT4-RF.18

Parameters

- Power supply: DC5V (from wireless power interface)
- Power consumption: 45mA/DC5V
- Wireless transmit power: +10dbm
- Wireless receive sensitivity: -90dbm
- Installation: Wall mounting
- Dimensions: 86×86×10.5(mm)

Functions

- Multi Key Mode: Single on, Single off, Single on/off, Combination on, Combination off, Combination on/off, double click/single switch, double click/Combination switch, Momentary, Short/Long Press, Short Press/Long Jog.
- Multi Key control Type: Scene, Sequence, Timer switch, Universal switch, Single channel lighting control, Curtain switch, GPRS control, Panel control, Broadcast control, Broadcast channel, Security module, Z-audio control
- Adjustable backlight color and intensity
- Supports online upgrading

RGB LED backlight

Each button is illuminated by an RGB LED back light which can change colour or intensity when used for different applications, based on the preference of the user. This customisable button back light ensures that the unit can blend into any situation or environment.

The color, icons and pattern of the plate can be customised

Based on your personal favorites or your requirements

White Glass Black Glass Pink Glass Orange Glass

Status without backlight color

All RGB color are selectable

Wireless Touch Button Switch

MPT2-RF.18 / MPT2-RF.16 / MPT4-RF.16 / MPT6-RF.16

MPT4-RF.16

MPT2-RF.18

MPT2-RF.16

MPT6-RF.16

Parameters

- Power supply: DC5V (from wireless power interface)
- Power consumption: 45mA/DC5V
- Wireless transmit power: +10dbm
- Wireless receive sensitivity: -90dbm
- Installation: Wall mounting
- Dimensions: 86×86×10.5(mm)

Functions

- Multi Key Mode: Single on, Single off, Single on/off, Combination on, Combination off, Combination on/off, double click/single switch, double click/Combination switch, Momentary, Short/Long Press, Short Press/Long Jog.
- Multi Key control Type: Scene, Sequence, Timer switch, Universal switch, Single channel lighting control, Curtain switch, GPRS control, Panel control, Broadcast control, Broadcast channel, Security module, Z-audio control
- Adjustable backlight color and intensity
- Supports online upgrading

Wireless iSmart Panel

MPE04R-RF.18

MPT4-RF.18

Parameters

- Power supply: DC5V (from wireless power interface)
- Power consumption: 64mA/DC5V
- Wireless transmit power: +10dbm
- Wireless receive sensitivity: -90dbm
- Installation: wireless power interface, wall box
- Dimensions: 55.5×55.5×16.8(mm)

Functions

- Floor heating controller
- Five preset modes: Day, Night, Away, ECO, and Home
- Current temperature display (internal and external)
- Supports five simultaneous control channels,
- Multi key control mode: Scene, Sequence, Timer switch, Universal switch, Single channel lighting control, Broadcast scene, Broadcast channel, Shading control, GPRS control, Panel control, Security module, Z-audio control, Universal control, Link page, DALI area dimmer, RGB control, IR control, Logic adjust, Logic scene.
- Supports dimming
- Adjustable LED indicator adjustment
- Supports online upgrades

Wireless Power Interface (L+N Type)

MPWPID00LN.18 / MPWPID00LN.16

Parameters

- Product name: Fire line and null line for power supply
- Working voltage: AC85-270V 50/60Hz
- The maximum output current: 100mA/5VDC
- Fuse: 2A, aR type
- Dimension: 84×84×39(mm)(EU) 84×114×39(mm)(US)

Functions

- Supply DC5V power for wireless panels
- Power protection

MPWPID00LN.18 / MPWPID00LN.16

Wireless power interface, which is used the fire line and null line to provide power. And it should work with wireless panel. There are two sizes, EU and US.

3CH Wireless Dimming Power Interface

MPWPID03L.18 / MPWPID03L.16 / MPWPID03LN.18 / MPWPID03LN.16

MPWPID03L.18 / MPWPID03L.16

Parameters

- Working voltage: AC85-270V 50/60Hz
- Output channel: 3 channels
- Output current: 1st channel $\leq 1.2A$ 2nd and 3rd channel total current $\leq 2A$
- Fuse: 6A, aR type
- Dimension: 84×84×39(mm)(EU) 84×116×39(mm)(US)

Functions

- Supply DC5V power for wireless panels.
- 1st channel is MOSFET dimming 2nd and 3rd are TRIAC dimming/switch
- Short circuit protection
- Over heating protection

Panel plate

Panel power interface

Back box

1CH Wireless Switch Power Interface. Sensor

MPWPIR01T.18 / MPWPIR01T.16

MPWPIR01T.18 / MPWPIR01T.16

Parameters

- Working voltage: AC85-270V 50/60Hz
- Output channel: 1CH relay
- Output current: 16A 250VAC
- Fuse: 2A, aR type
- Dimension: 84×84×39(mm)(EU) 84×116×39(mm)(US)

Functions

- Supply DC5V power for wireless panels
- 1CH relay output
- Measure the temperature (This is the proprietary function for MPWPIR01T.18)
- Power protection

3CH Wireless Switch Power Interface

HDL-MPWPIR03.18/HDL-MPWPIR03.16

MPWPIR03.18 / MPWPIR03.16

Parameters

- Working voltage: AC85-270V 50/60Hz
- Output channel: 3CH relay
- Output current: 3A 250VAC(resistive load) 2A 250VAC(capacitive load)
- Mechanical life time of relay: 1×10^7 times
- Electronic life time of relay: 1×10^5 times
- Fuse: 10A
- Dimension: 84×84×39(mm)(EU) 84×116×39(mm)(US)

Functions

- Supply DC5V power for wireless panels
- 3 relay output channel
- Power protection

Wireless Ceiling Mount Ultrasonic & PIR Sensor

MSPU05-RF.1C

MSPU05-RF.1C

This module is both a PIR and ultrasonic sensor utilizing wireless communication protocols. Several logic inputs can be used to control multiple targets, and the module can be connected to other security modules.

Detection range

Parameters

• Working power: AC220V
• Detection range: 6m (Installation height: 3m)
• Communication: Wireless
• Installation: Ceiling mount
• Dimension: Ø95*37(mm)

Functions

• Built-in Temperature sensor, PIR sensor, LUX sensor, Ultrasonic sensor, as well as Universal switch, Dry contact and logic control
totally 8 logic input conditions
• With 24 logic blocks, each logic block have 8 input and 20 output commands; Each logic block has two universal switch inputs, can totally set 48 universal switches
• Variety Control includes scene switch, sequence switch, universal switch, signal channel adjust, audio, curtain, GPRS panel control, background music control, etc
• Two logic relationships: OR, AND
• Adjustable infrared sensitivity, sensitivity range: 1-100
• Adjustable ultrasonic sensitivity, sensitivity range: 1-100
• Security function, to be used with the security module.
• Supports wireless online upgrading.

Wireless PIR & Lux Sensor

MSPU03-BRF.10

MSPU03-BRF.10

This omnidirectional mini sensor is fully portable and able to detect motion, light intensity, and temperature. Ideal for solutions which require a truly flexible detection ability, the sensor can be placed in practically any location. Once a location for the sensor is selected, the adjustable socket ensures an optimum field of detection.

Detection range

Parameters

• Working voltage: 3V 1400mAh (From battery)
• Working current: 21mA
• Standby current: 24µA
• Indoor communication distance: ≤30m
• RSSI Received Signal Strength Indication: > -80dbm
• (China) WPAN: 780-786MHz
• (Europe) SRD: 864-870MHz
• (North America) ISM: 904-928MHz
• Default password: HDL-SecurityKey0
• Dimension: 54x54x51.5(mm)

Functions

• Build in PIR sensor, LUX sensor, Temperature sensor
• LUX detection: detect current brightness
• Temperature detection: detect current temperature
• Battery energy detection: detect current battery energy
• Broadcast function: can broadcast its status, such as: movement, brightness, temperature, battery energy, you can select from the configuration.
• Target type: invalid, scene, sequence, universal switch, single channel lighting control, curtain switch, GPRS control, broadcast scene, broadcast channel, security, z-audio control.
• Can adjust the detection range.
• Supports IEEE.802.15.4
• Supports online upgrading
• Supports easy programming

Wireless IR Emitter

MIR01R-RF.10

MIR01R-RF.10

Wireless IR Emitter, adopt HDL wireless communication way, download IR codes are saved in database or that learning by IR learner via HDL Buspro programming software, such as to control the IR equipments such as AC, TV, Fan and so on.

Parameters

• Working power: 5V DC (From USB)
• Working current: 20mA
• IR emission carrier frequency: 38KHz
• IR Control distance (channel 1): 5m
• Indoor communication distance: ≤30m (Barrier free)
• RSSI Received Signal Strength Indication: > -80dbm
• China (WPAN): 780MHz to 786MHz
• Europe (SRD): 864MHz to 870MHz
• North America (ISM): 904MHz to 928MHz
• Default PSK: HDL-SecurityKey0
• Dimensions: Φ120x37 (mm)

Functions

• Drive the LED transmitting tube directly
• 3 IR emission channels
• Supports 10 devices and 100 learning IR codes.
• Supports for many remote controller types, find the brand which you need, through the test to choose the right one.
• Can update IR codes from database, also can update IR codes that learning by HDL IR learner.
• Sequence function, to call the sequence by universal switch, the UV switch number is 201-208.
• Temperature detect and broadcasting functions
• Build in time chip, time and clock function
• Supports IEEE.802.15.4
• Supports online upgrading
• Supports easy programming

Buspro / Wireless Gateway

MBUS/GW-RF.40

MBUS/GW-RF.40

Parameters

• Input voltage: 85~260VAC, 50/60Hz
• Power consumption: 1.15W
• Output: 24VDC 100mA
• Wireless transmission power: +10dbm
• Wireless sensitivity: -90dbm
• Indoor communication distance: ≤30m (barrier free)
• RSSI received signal strength indication: > -80dbm
• Dimension: 48.2x43.6x21.3 (mm)

The HDL-MBUS/GW-RF.40 is a wireless converter enabling Buspro wired devices to be incorporated in to a Buspro wireless network.

Functions

• Supports IEEE.802.15.4
• Provides power to HDL Buspro devices, while enabling them to be connected to a Buspro wireless network.
• Online upgrades are supported for both the HDL-MBUS/GW-RF.40, and the module it is connected to.
• Supports easy programming

Wireless Gateway Module

MCIP-RF02.10

MCIP-RF02.10

As a wireless gateway module the MCIP-RF02.10 can support RJ45, HDL-Buspro, and RF, and create a meshed network using standard IEEE 802.15.4. The frequency can then be selected from between 780-794, 864-882, and 904-928 MHz. The module is also able to create a transmission bridge between devices, extending the RF scope. Via the on board buttons RF parameter setting is enabled.

Parameters

• Working power: 12~30VDC
• Communication: RJ45, HDL Buspro, Wireless
• Wireless transmit power: +10dbm
• Wireless receive sensitivity: -90dbm
• Communication distance indoor: 50m (barrier free)
• Work mode: Mesh mode, bridge mode
• BUS Terminal: 0.75-0.85mm Diameter Single Core
• Additional function: RF433MHz receiving

Triple communication interfaces

The wireless MCIP-RF02.10 Gateway supports three essential communication types, RJ45, HDL-Buspro, and RF. These communication methods allow a user to control the wireless system via a pad or smart phone, while maintaining conventional wired system functionality.

Wireless Central Frequency

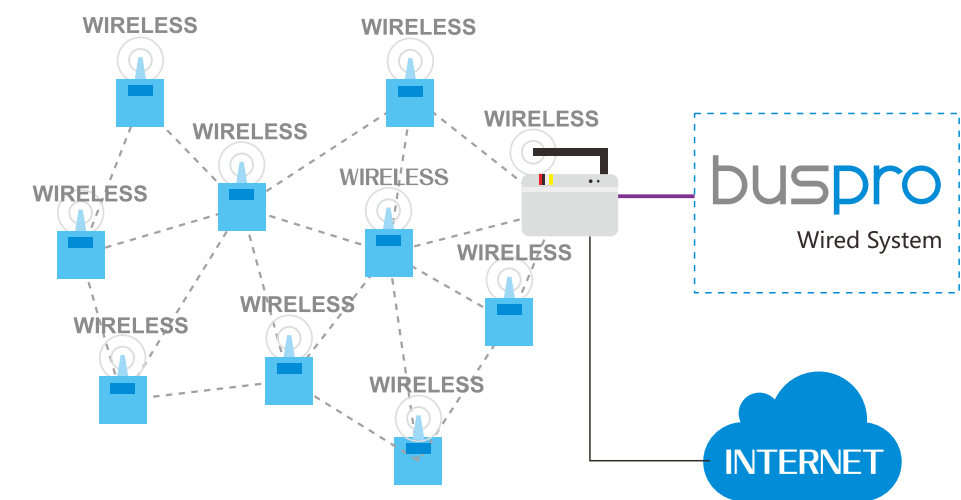

• (China) WPAN: 780MHz-794MHz
• (Europe) SRD: 864MHz-882MHz
• (North America) ISM: 904MHz-928MHz

Dual Working Modes

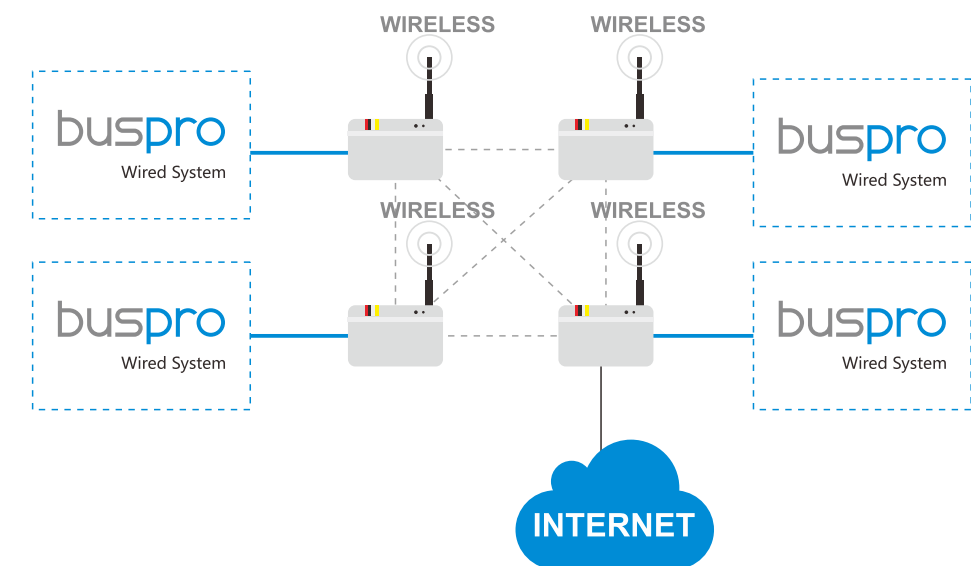

With two working modes the gateway is suitable for any automation solution. The first mode is the mesh network mode; this mode enables all the wireless devices active on the network to connect to each other. The mesh also supports wired system integration through the RJ45 and HDL Buspro ports.

The second mode is bridge mode; the function of this mode is to act as a transmission bridge. This enables multiple gateways and their associated wired devices to communicate with each other wirelessly. The scope of the system can then be further extended via RF.

Mesh network working mode

Bridge working mode

Wireless 1 Channel Motorized Curtain

MWM70-RF.12

MASTER

MWM70-RF.12

The module is a wireless motorized curtain controller, which supports both master and slave modules. The unit utilizes standard IEEE 802.15.4 wireless communication protocols, with frequencies of 780-794, 864-882, and 904-928 MHz. The new generation clutch and planetary reducer gears, enable the controller to operate at a barely audible 40db.

Common Parameters

- Voltage range: AC220V±20% 50Hz
- Slave interface: 6P network interface
- Rated power: 70W
- Rated torque: 1.0Nm
- Rated speed: 112rpm
- Line speed: 16cm/s
- Communication: wireless
- Insulation class: E
- IP class: IP41

Special parameters for MASTER

- Power supply: AC220V
- Communication: Wireless
- Master interface: RJ11(6P6C) network port

Special parameters for SLAVE

- Bus working voltage: DC12V
- BUS Power Consumption : 33mA/DC 12V
- Power supply: Provide from master
- Slave interface: RJ11(6P6C)network port

Technical Specifications

- Direct-powered by 220V AC, Maximum pulling force 8Kg(one motor), maximum curtain weight 50Kg (one motor), 80Kg (2 motors).
- Built-in new generation clutch, precise planetary reducer, noise level 40dB.
- Percentage control enabled.
- Drag and run enabled.
- Integrated with multiple user interfaces, HDL panel, iLife on iPad, Touchlife on Android pad, Touchlife on 7-inch touch screen.
- Suitable for all small to medium-scale curtain applications, linear and arched, one- and two-side opening.
- Recommended maximum track length 12m; refer to load curves below

Functions

- Over LOAD protection. The curtain will stop in case of external disturbance
- Supports the following control commands: Open, Close, Stop and Percentage
- Included additional pieces to adjust the curtains to the supports
- Easy programming for control panels and switches
- Supports manual mode when the power off
- Motor running mode: forward or reverse
- Pulse coding for position control

- OverHEAT protection. In case of high temperature, the motor will switch off temporarily
- The position of the curtain can be measured and displayed in user interfaces
- Optional function of automatic calibration when power on
- Trigger manually the Open and Close of the curtain
- Solid and robust structure with modern style
- Supported Master and Slave mode
- Extremely silence working mode

Load curves(one-motor type)

Load curves(two-motor type)

1/2CH Relay

MPR01-RF.18 /MPR02-RF.18/MPC01-RF.18

MPR01-RF.18

Parameters

- Input voltage: AC85-265V
- Output current: 10A (Resistive load), 5A (Capacitive load)
- Power consumption: Max. 1.7W
- Wireless transmit power: +10dbm
- Wireless receiving sensitivity: -90dbm
- Communication distance indoor: ≤30m (barrier free)
- Installation: Wall box
- Dimensions: 44x36x17(mm)

MPR02-RF.18

Parameters

- Input voltage: AC85-265V
- Output current: 3A (Resistive load), 2A (Capacitive load)
- Power consumption: 1.45W max.
- Wireless transmit power: +10dbm
- Wireless receiving sensitivity: -90dbm
- Communication distance indoor: ≤30m (barrier free)
- Installation: Wall box
- Dimensions: 44x36x17(mm)

MPC01-RF.18

Parameters

- Input voltage: AC85-265V, 50/60HZ
- Output current: 5A
- Power consumption: 1.45W max.
- Wireless transmit power: +10dbm
- Wireless receiving sensitivity: -90dbm
- Communication distance indoor: ≤30m (barrier free)
- Installation: Wall box
- Dimensions: 44x36x17(mm)

1CH Trailing Dimmer / 4 CH Dry Contact Input

MPD01-RF.18/MPS04-RF.18/MPDA04-RF.18

MPD01-RF.18

Parameters

- Input voltage: AC85-265V
- Output current: Max. 1.5A
- Power consumption: Max. 0.7W
- Wireless transmit power: +10dbm
- Wireless receiving sensitivity: -90dbm
- Communication distance indoor: ≤30m (barrier free)
- Installation: Wall box
- Dimensions: 44x36x20.2(mm)

MPS04-RF.18

Parameters

- Input voltage: AC85-265V
- Power consumption: Max. 0.3W
- Wireless transmit power: +10dbm
- Wireless receiving sensitivity: -90dbm
- Communication distance indoor: ≤30m (barrier free)
- Installation: Wall box
- Dimensions: 44x36x17(mm)

MPDA04-RF.18

Parameters

- Input voltage: AC85-265V, 50/60HZ
- Power consumption: 2.7W Max.
- Wireless transmit power: +10dbm
- Wireless receiving sensitivity: +90dbm
- Communication distance indoor: ≤30m (barrier free)
- Installation: Wall box
- Dimensions: 44x36x17(mm)

Description

- HDL Buspro Software is a flexible and powerful design tools, it is to be used for parameters setting for all HDL Busproducts

HDL Buspro Graphic Monitor Software

Description

- HDL Buspro System Graphics Supervisory Control Software is the powerful and convenient graphical software, It graphically monitoring and control over the lighting circuit, it have run statistics with data, status for alarm, timer control, scene control, dimming controls, and hyperlink.
- Optional types: MSCS.100, MSCS.200, MSCS.500, MSCS.1500, MSCS.NL.
- Number of monitored objects: 100 controlled point, 200 controlled point, 500 controlled point, 1500 controlled point, and infinite controlled point.

HDL Buspro Easy Setup Tool

Description

- HDL Buspro Easy Setup tool is an easy functional design tool, which can program for all of HDL Buspro online or offline devices and meet all requirements of the systems engineering design. Meanwhile, it also supports the import and export of project data, enabling flexible data sharing.

Functions

- Easy for program and operate based on graphic icon.
- User-defined material, show the reality picture about the Hotel Room
- “SOS” Safety Box Protection” and many other functions, all lamps to centralized for management features
- Energy saving control function and Monitor for Air-conditioning
- Intelligent ID identify, more safety for customers, and reducing the energy consumption for hotel
- Date back up and restore function
- Curtain status for graphic display and control
- Dynamic fan graphic effects control

Intelligent Hotel Room Management Software

Description

- HDL Buspro Hotel Room Intelligent System Manage Software can be monitor to hotel room status and information, the database management, will safety and reliability.
- To management and control the hotel room entrances guard system, central air conditioning system, the intelligent light system, and the service system, room status will various intuitive ways of interacting dynamically to displayed, real-time to reflect room state, guest needs, services and equipment, assist in hotel room equipments , internal resource for real-time control of the integrated management and control system.
- The system uses modular design, has energy-saving, efficiency, and offers personalized service to customer, raising the level of hotel management and the hotel images.
